INTRODUCTORY.

With a view of ascertaining what inducements the cities of Illinois, outside of Chicago, have to offer in the way of encouraging investments in manufacturing enterprises, the Bureau instituted an investigation based on the following schedule:

STATE BUREAU OF LABOR STATISTICS, SPRINGFIELD, ILLINOIS.

REPORT ON INDUSTRIAL OPPORTUNITIES.

Date _____

Name of person giving information _____

1. Name and location of city____. Tax rate for county purpose including bond if any \$____. Township \$____. City including bond and park tax if any \$____.
2. Number of railroads____. Trains daily____. State whether there are good facilities for the receipt and shipment of freight____.
3. How much land have you available and suitable for additional manufacturing purposes____. Give location with respect to railroads____.
4. What inducements has your city to offer to secure factories either in furnishing sites or financial aid____. Are there any idle factory buildings____. If so describe them____.
5. What is the cost of coal per ton for manufacturing purposes \$____.
6. Have you a good water supply for household and manufacturing purposes____. How furnished____. If by plant, at what cost to factories \$____.
7. What agricultural products have you that would supply material for manufacturing____. What mineral products____.
9. Have you a supply of clay, sand or stone of a commercial value____.
10. Can help be secured in your city or adjoining cities____. Give the estimated number of men or women who could be secured for such employment____.
11. Is your city supplied with gas or electric light plants____. What is the price of each to factories \$____. To other consumers \$____.
12. How provided for fighting fire____.
13. What kind or kinds of additional enterprises would, in your opinion, be best suited to your locality____.
14. Number and names of newspapers published, daily or weekly____.
15. Number of graded schools____. High schools____. Is manual training a part of the school curriculum____.
16. Number of churches____. Number of banks____.

17. Number of manufacturing industries—.

NOTE—If you have advertising material relative to any special advantages you possess as a manufacturing or commercial city, please enclose copies with your reply. If any special inducements are made to secure manufacturing enterprises, please report them.

List of manufactures of the city of—.

Name of Manufacturers.	Articles Manufactured.	Employés.	
		Male.	Females.

A letter enclosing the schedule was addressed to the chief officer of each city containing a population of 1,000 or more, requesting that the information called for be furnished. The Bureau was entirely dependent upon the willingness of city officials to voluntarily supply the data as the limited appropriation made for the department would not permit of the employment of special canvassers for such work. Notwithstanding repeated requests in many cases a considerable number failed to answer.

From a list of 316 cities, to which these requests were addressed, 187 made full and satisfactory replies and they constitute the accompanying report. While it is not as complete as might be desired, sufficient pertinent facts are presented from different localities to attract attention to the opportunities which the State offers for the profitable investment of capital in manufacturing. The facilities for transportation, accessibility of raw material, fuel, water, light and other required supplies, together with cost, taxation rates and available labor, are all important factors in the location of industrial plants.

In the collection and publication of this data, more as a matter of advertisement than as a statistical report, the Bureau is impressed with the conviction that its effect in calling public attention to these advantages will naturally aid in increasing our great and growing power as a manufacturing State.

Of the total number reporting, all with the exception of six, desire additional factories. In the class having and desiring no manufacturing industries, the most notable city is Evanston, an educational center, and, as its mayor reported, essentially a city of homes. It offers no inducements for manufacturing of any kind, on the contrary would, if possible, prevent the location within its limits of any enterprise of that character.

Outside of the city of Chicago, which contains more than one half of the 18,000 manufacturing plants in the State, according to the last federal census, the greater part of manufacturing is confined to cities ranging in population from 5,000 to 30,000. These cities contain over 8,000 manufacturing plants, giving employment to 172,000 men and women, the annual product is valued at \$637,000,000, over one-fifth of

which is represented in wages. Including the city of Chicago, the manufacturing record of Illinois for the year 1909 as presented in the summary of the Census Bureau, gives the following important items:

	Years.		Per cent increase 1904-1909.
	1909.	1904.	
Number of establishments.....	18,031	14,921	21
Capital.....	\$1,547,301,000	\$ 975,845,000	59
Cost of material as used.....	1,160,371,000	840,057,000	38
Salaries and wages.....	364,570,000	268,965,000	36
Miscellaneous expenses.....	207,592,000	172,186,000	21
Value of products.....	1,918,321,000	1,410,342,000	36
Value added by manufacture (products less cost of material).....	757,950,000	570,285,000	33
Employés, number of salaried officials and clerks.....	77,902	54,521	43
Average number of wage earners employed during the year.....	465,565	379,436	23
Primary horse-power.....	1,011,874	741,555	36

TABULAR PRESENTATION.

The statistical part of this report is presented in a series of twelve tables, which give separate and detailed particulars of all items returned on the schedules.

Following is a summary of these tables:

I—MUNICIPALITIES—POPULATION.

Under this head will be found the cities or villages reported, the counties where located, the population in 1910 and 1900, and the increase or decrease in ten years. It will be observed that 49 of the 187 places reported a decrease in population. This is 26.2 per cent of the whole number. The city showing the greatest gain is Herrin, Williamson county. The population of this city in 1900 was 1,559, and in 1910 it had increased to 6,861 or 340.1 per cent. Kankley, LaSalle county, shows the greatest decrease, being 62.2 per cent, it now having but 380 people while in 1900 it had 1,004.

This increase and decrease in the population of these places is explained in the development and decline of mining communities. Years ago Kankley was a prosperous mining settlement, but the coal field became exhausted and the people who followed and depended for a living on the mining industry, sought other centers. The store buildings and homes of the people were torn down or removed, and but little evidence remains of its former existence. Herrin is a notable example of the rapid growth of a community dependent practically upon the business of mining coal. Rich and almost illimitable deposits of coal have been discovered at that point under conditions that invite investments. Much of the decrease in the population of certain communities can be accounted for in the natural shifting of industrial centers, particularly is this true of mining, just as the explanation of the decline in certain agricultural sections may be found in the movement from the country to the cities.

II—TAX RATE, RAILROAD FACILITIES, LANDS, INDUCEMENTS.

This showing presents important information peculiar to each locality. The tax rate for county, town and city purposes is shown so far as reported. The number of railroads and number of daily trains, facilities

for receiving and shipping freight, the number of acres of land available for factories and its location with respect to railroads and the inducements offered by the different municipalities to secure factories is also shown.

Of the 74 counties which report a tax rate for county purposes, Iroquois county has the lowest—20 cents. Ford county is a close second with a rate of 23 cents. Lanark, Carroll county, reports the lowest rate for municipal purposes—22 cents—while Madison, Madison county has a city tax of 54 cents. There were however 94 municipalities that did not report the rate for city tax.

All the cities and villages shown in this table, with the exception of Nauvoo, have one or more railroads running several trains daily each way affording good facilities for receiving and shipping freight as well as excellent passenger service.

To the question "How much land have you available and suitable for additional manufacturing purposes?" one hundred and seventy-two report from a few acres to an "unlimited quantity." Seven report "none" and eight leave the question unanswered. This land is adjoining or near the railroad right of way.

III—COAL AND WATER SUPPLY, PRODUCTS, LIGHTING PLANTS.

The particulars shown in this table are, towns having factory buildings now vacant; cost of coal to factories; how water is supplied and its cost; agricultural and mineral products; the approximate number of employes that may be secured; the kind of light and the price to factories and to other consumers. The price of gas quoted is for 1,000 cubic feet and that of electricity is for the kilowatt hour.

IV—FIRE PROTECTION, RELIGIOUS AND EDUCATIONAL ADVANTAGES, INDUSTRIES DESIRED.

Here is presented the facilities for fighting fire, the kind of industry wanted, the number of newspapers, schools, churches, banks and factories in each municipality where report is made. It will be observed that all the larger cities have fire departments and some of them are excellently equipped for this important work. Forty-six cities report 96 daily newspapers, eleven cities have 15 semi-weekly and in one hundred and sixty-one municipalities are published 257 weekly newspapers. There is no report from eleven places as to newspapers.

One hundred seventy-two municipalities report 573 graded schools, and one hundred three report 174 schools, while six places make no report.

One hundred and eighty out of the 187 municipalities maintain 1,495 churches. Springfield has the largest number, 55, while Aurora and Decatur have 40 each.

Four hundred and twenty-eight banks are reported from 178 municipalities; 938 factories of different kinds are located in 127 cities and villages.

V, VI, VII—MANUFACTURIES NOW ESTABLISHED, ARTICLES PRODUCED,
WAGE EARNERS EMPLOYED.

These three exhibits present first, the name of the manufacturers, the articles made and the number of employés both male and female, and is arranged by counties. Second, the municipalities in alphabetical order, giving the county where each city or village is located. This table also gives the total number of factories, number of articles made and employés, both male and female. Third, the counties wherein the manufactories are situated, the number of municipalities; the number of factories; the number of articles made and the number of employés in each.

VIII, IX—ESTABLISHED INDUSTRIES, PRODUCTS, LOCATIONS,
•EMPLOYES.

These two presentations give, first, the manufactories now established, the city or village where the establishment is located, also the number of plants at each place and the number of employés, both male and female. Second, showing all of the industries arranged in alphabetical order and giving the totals for the State.

X—ALL CITIES REPORTING, INDUSTRIES WANTED, HELP AVAILABLE,
INDUCEMENTS OFFERED.

This showing brings to notice in detail the industry that would be welcome in the several municipalities, together with the inducements offered and the amount of help available in each. Of the 187 cities and villages, 126 report that they want industries established, 55 leave the question unanswered and six report that they do not want any. Thirteen of the 126 places that want industrial establishments, report that they have no inducements to offer and 29 do not answer the question.. All of the places seeking industries with one exception, report that help is available for the kind of industry wanted. Forty-three, however, do not state the number of employés that may be obtained.

XI—PLACES OFFERING FREE SITES, INDUSTRIES WANTED, WAGE
WORKERS AVAILABLE.

This division presents forty municipalities, arranged in alphabetical order, which offer free sites for the kind of factory or industry wanted and the number of employés available. The table also shows the county in which the city or village is located and the population in 1910. In addition to free sites, eight municipalities will extend financial aid to industries wanted, and the three others offer free water.

XII—PLACES OFFERING FINANCIAL AID, INDUSTRIES WANTED, HELP
AVAILABLE.

This is a similar showing to the one just previous, excepting, it presents a list of 43 places that offer financial aid only.

DESCRIPTIVE PARTICULARS.

ABINGDON, KNOX COUNTY.

Population in 1910, 2,464, situated on the I. C. & C. B. & Q. Railroads, about 12 miles south of Galesburg, the county seat. Tax rate for city purposes \$2.50. Telephone and telegraph facilities. Electric light plant. International money order postoffice. Good facilities for receipt and shipment of freight. A good supply of pure water from deep wells. Water works and a volunteer fire department. Water is furnished to factories at a cost of 16 cents per 1,000 gallons. The city has four churches, two banks, two graded and one high school, and maintains manual training as a part of the school curriculum. One semi-weekly and two weekly newspapers are published here.

Abingdon is surrounded by good farms where wheat, oats, corn and dairy products are produced in abundance. A good supply of clay of commercial value is also found here.

The manufacturing industries established here at present are the Abingdon Paving Brick Company, Novelty Company, Globe Shirt Company, Abingdon Shirt Company, Abingdon Trap Company, Abingdon Wagon Company, Abingdon Sanitary Company and American Sanitary Manufacturing Company. The additional enterprises wanted by the citizens are gas and ice plants or almost any kind of industry seeking a location for which they have 160 acres of land suitable near or adjoining the railroads that is available for such purposes. It is thought that plenty of help could be secured in the city and surrounding country.

ALBION, EDWARDS COUNTY.

Population in 1910, 1,281. Situated on the Southern Railway, and is the county seat. Tax rate for county purposes 45 cents and city \$1.60. International money order postoffice. Gas light plant, good facilities for receipt and shipment of freight. At the present there is not a good supply of water, but there is a proposition pending for water works and light plant. Coal can be bought for \$1.50 per ton on track.

Albion is provided with a large gasoline engine for fighting fires. The city has five churches, two banks, one graded school, one high school, and Southern Collegiate Institute, which is a high grade academic institution, its graduated being admitted to the best colleges and universities. Two weekly newspapers are published. Albion has had no saloon in 40

years. Albion is surrounded by farms where wheat, corn, broom corn, fruits and vegetables are raised. A supply of shale and clay equal to any in the State are found here. There are four industries here which employ 75 men. Any factory seeking a location could secure plenty of land adjoining the railroad, which would be suitable for a site, and at least 200 persons could be secured for employment. Some inducements would be given by the citizens to secure additional enterprises.

ALTON, MADISON COUNTY.

Population in 1910, 17,528; situated on the Mississippi river about 20 miles north of St. Louis. Tax rate for county purposes 74 cents and city \$1.66. International money order postoffice. Both gas and electric light plants, gas being furnished for \$1.10 per 1,000 and electricity for \$1.60 per 1,000 to all consumers. Good facilities for receipt and shipment of freight, both by rail and water, there being seven railroads and river. A good supply of water is furnished from private water works plant, at a cost of 6 cents per 1,000 gallons. Alton has five first class paid fire departments, twenty-one churches, five banks, twelve graded and one high school. Three daily and two weekly newspapers are published. Alton is surrounded by farms where corn and wheat are grown. An excellent grade of limestone, clay and sand are found here. There are nineteen manufacturing industries, located here which employ 4,560 men and 395 women. Any new industry wishing to locate here could secure any amount of land desired adjoining railroads and plenty of help could be secured; there are at present two factory buildings vacant which could be secured by manufacturing concerns.

AMBOY, LEE COUNTY.

Population in 1910, 1,749; situated on the Illinois Central and C. B. & Q. Railroads about 12 miles southeast of Dixon, the county seat. Tax rate for county purposes 42 cents. Township 14 cents and city \$1.47.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight, there being two steam and one electric railways. A good supply of water is furnished by artesian well 2,000 feet deep. Coal can be bought for about \$2.00 per ton.

Amboy has steam engine and pressure tank for fighting fires, six churches, one bank, four graded and one high school. Two weekly newspapers are published. Amboy is surrounded by farms where all grains grown in the corn belt are raised, and sand and clay are found in limited quantities. There is one manufacturing concern located here, which employes ten men and one woman. Any new concern wishing to locate here would be acceptable, considerable land adjoining the railway tracks would be available and at least 100 persons here could be secured for employment, some inducements would be given to a desirable industry.

ANNA, UNION COUNTY.

Population in 1910, 2,809; situated on the Illinois Central Railroad about two miles northeast of Jonesboro, the county seat, and is connected with said town by an electric road. Tax rate for county purposes 75 cents and city \$1.35.

International money order postoffice. Electric light plant, electricity being furnished at 10 cents per kilowatt. Good facilities for receipt and shipment of freight. At the present time water is furnished by deep wells, but waterworks are being established. Coal can be bought for \$1.25 to \$1.45 per ton.

Anna is provided with a gasoline engine for fighting fires and is expected to have 43 fire hydrants within a year. The city has eight churches, two banks, two graded and one high school. Two weekly newspapers are published.

Anna is surrounded by farms which produce grains, fruits and vegetables. Silica and limestone are found in large quantities. There are ten manufacturing industries located here. The additional enterprises wanted by the citizens are canning factories, flour mills, box factories, foundry and machine works. A considerable amount of land adjoining railway tracks would be available, and at least 300 persons could be secured for employment.

ARCOLA, DOUGLAS COUNTY.

Population in 1910, 2,100. Situated on the Illinois Central and Vandalia Railroads about 8 miles south of Tuscola the county seat. Tax rate for county purposes 75 cents. Township 90 cents and city \$2.50.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. City waterworks. Arcola has good facilities for fighting fires, seven churches, two banks, two graded and one high school, with manual training a part of the school curriculum. Two newspapers are published.

Arcola is surrounded by farms which produce corn, wheat, oats and vegetables. A good supply of clay, for brick and tile is found here. There are seven manufacturing industries located here. At least 60 acres of land convenient to the railroads could be obtained for any additional manufacturing concerns, and 300 persons could be secured for employment.

The citizens would give some inducements to secure any desirable industries for the city.

ARLINGTON HEIGHTS, COOK COUNTY.

Population in 1910, 1,943. Situated on the Chicago and Northwestern Railroad about 25 miles northwest of Chicago. International money order postoffice. Gas and electric lights. Good facilities for receipt and shipment of freight. City waterworks. Coal can be bought for \$2.00 per ton delivered. Arlington Heights has a volunteer fire

department, five churches, one bank, one graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published.

There are five manufacturing industries located here. Any additional concerns wishing to locate here could secure land adjoining the railroad, and any number of persons could be secured for employment.

ASSUMPTION, CHRISTIAN COUNTY.

Population in 1910, 1,918. Situated on Illinois Central Railroad about 9 miles north of Pana.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Water is furnished by wells for household purposes. Coal can be bought for 75 cents to \$1.25 per ton. Assumption has a volunteer fire department, four churches, two banks, two graded and one high school. One weekly newspaper is published. Assumption is surrounded by farms which produce corn, oats, wheat, sweet corn and vegetables. There are three industries located here which employ 266 men. Any concern seeking a location could secure any amount of land for a site, and at least 200 persons could be secured for employment.

ASTORIA, FULTON COUNTY.

Population in 1910, 1,357. Situated on the C. B. & Q. Railroad, about 7 miles southeast of Vermont. International money order postoffice. Good facilities for receipt and shipment of freight. Good supply of water furnished by deep wells, at meter rates ranging from 50 cents per 1,000 gallons to 7½ cents per 1,000 gallons, if 150,000 gallons are used each quarter. Coal can be bought for \$1.50 to \$1.75 per ton.

Astoria has a fire department, five churches, two banks, one graded and one high school. One weekly newspaper is published.

Astoria is surrounded by farms which produce corn, oats, wheat, tomatoes and beets, coal, clay, gravel and sand is found here. There are three manufacturing concerns located here. Additional enterprises that would probably be suited to this locality are canning factory and brick and concrete factory.

At least 100 acres of land adjoining the railway would be available for factory sites, and between 200 and 300 persons could be secured for employment.

ATHENS, MENARD COUNTY.

Population in 1910, 1,340. Situated on the Chicago, Peoria and St. Louis Railroad about 8 miles southeast of Petersburg, the county seat.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. There is not a good supply of water for manufacturing purposes, it being supplied for household purposes by private wells.

Athens has two small chemical engines for fighting fires, six churches, one bank, one graded and one high school. One weekly newspaper is published.

Athens is surrounded by farms which produce corn, oats, wheat, and other products grown in the corn belt. Coal is found here.

There is one manufacturing concern located here which employs six men. This city would not be suitable for any large manufacturing industry.

ATLANTA, LOGAN COUNTY.

Population in 1910, 1,367. Situated on the Chicago & Alton and Vandalia Railroads about 10 miles northeast of Lincoln the county seat.

International money order postoffice. Electric light plant which furnishes electricity at 15 cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished from drilled wells, at a cost of 10 cents per 1,000 gallons. Atlanta has a volunteer fire department, five churches, two banks, graded and high schools. One weekly newspaper is published.

Atlanta is in the center of an agricultural district where corn, wheat, oats, clover and timothy hay are grown.

Coal is found here. The citizens are not particularly desirous of any manufacturing concerns locating here, although they would not object to a coal mine, ice plant or any small factory.

AURORA, KANE COUNTY.

Population in 1910, 29,807. Situated on the Chicago, Burlington & Quincy Railroad; Elgin, Joliet & Eastern; Chicago Milwaukee & Gary and Chicago & Northwestern Railroads about 9 miles south of Geneva the county seat.

This city is also connected with all principal cities in the vicinity by electric lines. Tax rate for county 75 cents. Townships 8 cents and city \$2.31. International money order postoffice. Gas and electric light plants. Gas being furnished for \$1.00 per 1,000 feet and electricity 10 cents per kilowatt. Excellent facilities for receipt and shipment of freight.

A good supply of water is furnished by artesian wells. Coal can be bought for \$1.70 to \$2.25 per ton. Aurora has a good fire department, forty churches, six banks, ten graded and two high schools, with manual training a part of the school curriculum. Four daily newspapers are published.

Aurora is surrounded by farms which produce corn, oats, wheat, rye, fruit and vegetables. Clay, sand, stone and gravel of a commercial value are found in this vicinity.

There are about fifty manufacturing industries located here, which employ about 5,983 men and 1,358 women.

The citizens are desirous of having any kind of manufacturing concerns locate here, considerable land along the railroads would make very desirable sites and plenty of help could be secured for employment.

At present there is one idle factory building with about 18,000 square feet of space and engines and boiler.

AVERYVILLE, PEORIA COUNTY.

Population in 1910, 2,668. Situated between the two branches of the Chicago, Rock Island & Pacific Railroad a few miles north of Peoria.

Tax rate for county purposes 50 cents; township 12½ cents and city \$2.46. Gas and electric lights. Good facilities for receipt and shipment of freight. A good supply of water is furnished by Peoria Waterworks plant, which is located here, at a cost of 20 cents for first 1,000 feet and 6 cents for each 1,000 feet thereafter. Coal can be bought for \$1.00 to \$1.50 per ton.

Averyville has a paid fire department, three churches, two graded and one high school, with manual training a part of the school curriculum. Banking is done in Peoria and Peoria newspapers are delivered here. Sand of a commercial value is found here. There are eight manufacturing industries located here, which employ about 1,410 men and 100 women, the largest of these is the Avery Manufacturing Company, which manufactures threshing machines and employs 600 men and 35 women. Any new industry would be welcomed by the citizens, there being about 15 acres of land lying between the two branches of the C. R. I. & P. R. R. which is available and suitable for manufacturing purposes, and any number of persons could be secured for employment.

BARRY, PIKE COUNTY.

Population in 1910, 1,647. Situated on the Wabash Railroad about 15 miles east of the Mississippi river and East Hannibal. International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from deep wells.

Barry gets a water pressure from high towers for fighting fires. The city has three churches, two banks, one graded and one high school. Two weekly newspapers are published.

Barry is surrounded by farms which produce corn, oats and wheat. Lime stone and shale are found in unlimited quantities.

There are three manufacturing industries located here which employ 21 men. Any new industry wishing to locate here could secure any amount of land adjoining the railroad, and plenty of help could be secured in this and adjoining towns. There is at present one idle factory building, this was built for manufacturing ice, but was never used. This would be an ideal location for a paving brick concern, as there is an unlimited quantity of shale that by test makes first class paving brick. This is located within one-quarter mile of railroad with an ideal location for a yard and plenty of water.

Some inducements would be offered by the citizens in securing some good enterprise to locate here.

BATAVIA, KANE COUNTY.

Population in 1910, 4,436. Situated on the Chicago, Burlington and Quincy Railroad about 10 miles north of Aurora. Tax rate for county purposes 60 cents. Township 45 cents and city \$1.86.

International money order postoffice. Both gas and electric light plants, gas being furnished at \$1.00 per 1,000 feet and electricity at 12½ cents per kilowatt. Fair facilities for receipt and shipment of freight, there being two railroads. A good supply of water is furnished by city plant at 8 cents per 1,000 feet. Coal can be bought for \$2.40 per ton. The city has 80 pounds pressure on water mains for fighting fires.

Batavia has twelve churches, two banks, three graded and two high schools, with manual training a part of the school curriculum. Two weekly newspapers are published.

Batavia is surrounded by farms which produce corn, oats and wheat. There are nine manufacturing industries located here, which employ 922 men and 79 women. Any new industry wishing to locate here could secure at least 10 acres of land adjoining the C. B. & Q. Ry., and plenty of help could be secured for employment.

As an inducement to secure any new enterprise, a site for the location of same, could probably be obtained free.

BEARDSTOWN, CASS COUNTY.

Population in 1910, 6,107. Situated on the Illinois river about 12 miles west of Virginia, the county seat.

Tax rate for county purposes 75 cents and city 65 cents. International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight, there being two railroads besides the river. Good supply of water furnished by city water plant. Coal can be bought for \$2.00 per ton. Beardstown has a volunteer fire company, nine churches, three banks, five graded and one high school, with manual training a part of the school curriculum. One daily and one weekly newspapers are published.

Beardstown is surrounded by farms where corn, wheat, rye, oats and vegetables are grown. Plenty of sand of a commercial value is found here. There are about fourteen manufacturing industries located here, which employ about 1,245 persons, besides these shell fishing and the fish industry gives employment to about 300 men.

Any new industry would be welcomed by the citizens, there are 150 acres of land which would be available and suitable for factory sites and plenty of help could be secured for employment. Good inducements would be given to secure additional enterprises to locate here.

BELLEVILLE, ST. CLAIR COUNTY.

Population in 1910, 21,122. Situated on the Illinois Central Railroad about 12 miles southeast of East St. Louis and is the county seat.

Tax rate for county purposes 68 cents and city \$1.60. International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being six railroads.

A good supply of water is furnished by deep wells. Coal can be bought for \$1.25 per ton.

Belleville has a first class paid fire department, fifteen churches, three banks, ten graded and one high school. Five daily, three semi-weekly and one weekly newspapers are published.

Belleville is surrounded by farms where corn, wheat, oats and vegetables are grown. Coal, clay and shale of a commercial value are found here. There are forty-two manufacturing industries located here. Any new industries wishing to locate here could secure any amount of land desired, adjoining the railroads and at least 5,000 persons could be secured in this and adjoining cities for employment. Some inducements are offered by the business men of the city, to secure additional factories.

BELVIDERE, BOONE COUNTY.

Population in 1910, 7,253. Situated on two lines of the Chicago & Northwestern Railroad and an electric railroad and is the county seat.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished for household purposes from artesian wells. Coal can be bought for \$2.00 per ton.

Belvidere has two fire companies, eleven churches, four banks, two graded and high schools with manual training a part of the school curriculum. One weekly and semi-weekly and two daily newspapers are published.

Belvidere is surrounded by farms where corn, oats and wheat are grown. Stone, sand and clay of a commercial value are found here. There are five manufacturing industries located here which employ about 960 men and 610 women.

Any new industries wishing to locate here could secure a suitable site adjoining the railroad and plenty of help could be secured for employment. Some inducements in the way of a free site, and some financial aid could be secured by any enterprise wishing to locate here.

BLUE ISLAND, COOK COUNTY.

Population in 1910, 8,043. Situated on the C. B. & Q. and Chicago, Rock Island and Pacific Railroads about 15 miles south of the center of Chicago.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 10 cents per kilowatt.

Good facilities for receipt and shipment of freight; there being five railroads, a good supply of water is furnished from artesian wells and the river. Coal can be bought for \$2.10 per ton.

Blue Island has a volunteer fire department, ten churches, one bank, four graded and one high school. Two weekly newspapers are published.

Clay of a commercial value is found, there being at present four brick yards located here.

Any industry locating here could secure a suitable site near the railroad, and plenty of help could be secured for employment.

BRACEVILLE, GRUNDY COUNTY.

Population in 1910, 971. Situated on the Chicago & Alton Railroad. Tax rate for county purposes 30 cents. Township \$1.75, city \$1.00 and hard roads \$1.50.

International money order postoffice. Expect to have gas and electricity in the near future. Fair facilities for receipt and shipment of freight. Poor water supply. Coal delivered costs \$2.40 per ton.

Braceville has a volunteer fire department, one church, two banks, three graded, and one high school. Coal and clay of a commercial value are found here. There are four factories here which employ 15 men. Any industry wishing to locate here could secure a site adjoining the railroad and plenty of help could be secured for employment.

BRAIDWOOD, WILL COUNTY.

Population in 1910, 1,958. Situated on the Chicago & Alton Railroad about 20 miles south of Joliet.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by water works plant. Screenings can be bought for 70 cents per ton and other grades of coal in proportion.

Braidwood has a hose and chemical company for fighting fires. The city has four churches, one bank, and three graded schools. One newspaper is published.

The city will furnish a free site adjoining the railroad to any industry wishing to locate here.

BREESE, CLINTON COUNTY.

Population in 1910, 2,128. Situated on the Baltimore and Ohio Railroad about 8 miles west of Carlyle, the county seat.

Tax rate for county purposes 60 cents. Township 38 cents and city \$1.17.

International money order postoffice. Electric plant which furnishes electricity at 5 cents for power and 9 cents for light per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks plant. Mine run coal can be bought for \$1.12 per ton.

Breese has a volunteer fire department, three churches, one bank and two graded schools.

One weekly newspaper is published. Breese is surrounded by farms which produce corn, wheat, oats and other agricultural products raised in the corn belt. Coal and clay of a commercial value are found here. Any industry wishing to locate here could secure a suitable site adjoining.

ing the railroad and plenty of help could be secured for employment. Liberal inducements would be given by the citizens to securing any new industry.

BROOKFIELD, COOK COUNTY.

Population in 1910, 2,186. Situated on the C. B. & Q. Railroad and is a suburb of Chicago on the southwest.

Gas and electric light plants. A good supply of water is obtained from artesian wells.

Brookfield has hydrants and hose carts for fighting fire, four churches and four graded schools. One newspaper is published.

There are no industries located in this city, it being solely a residence suburb of Chicago.

BUNKER HILL, MACOUPIN COUNTY.

Population in 1910, 1,046. Situated on the Cleveland, Cincinnati, Chicago and St. Paul Railroad.

Tax rate for county purposes 75 cents. Township 12 cents and city \$3.25.

International money order postoffice. Electric light plant, electricity being furnished at from 8 cents to 10 cents per kilowatt. Fair facilities for receipt and shipment of freight. Water is supplied by wells. Coal can be bought for \$1.25 per ton. The city has a chemical and steam engine for fighting fires.

Bunker Hill has six churches, two banks, one graded and one high school and an academy. One weekly newspaper is published.

Bunker Hill is surrounded by farms which produce corn, oats and wheat. Coal and clay of a commercial value are found here. There are seven manufacturing industries located here which employ about 37 men. Any new concern wishing to locate here would be acceptable, land adjoining the railroad would be available for a site, and about 200 persons could be secured for employment. The citizens would furnish good locations as inducements to secure desirable industries.

BYRON, OGLE COUNTY.

Population in 1910, 932. Situated on the Rock river, Chicago, Milwaukee & St. Paul and Chicago, Great Western Railroads about 10 miles north of Oregon the county seat.

International money order postoffice. Good facilities for receipt and shipment of freight. A good supply of water is furnished by pressure system.

Byron has a pressure system and water mains as a means of fire protection, three churches, two banks, one graded and one high school. One weekly newspaper is published. There is a large quantity of sweet corn raised here, and it is also a dairy country. Sand and gravel of a commercial value are found here. There is one canning factory located in this place. Any concern wishing to locate here could secure a desirable location adjoining the railroad. There is an unlimited amount of land available and plenty of help could be secured for employment.

CAIRO, ALEXANDER COUNTY.

Population in 1910, 14,458. Situated on the Ohio and Mississippi rivers.

Tax rate for county purposes 99 cents and city \$1.43.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.25 per 1,000 cubic feet and electricity at from 6 cents to 15 cents per kilowatt. Excellent facilities for receipt and shipment of freight, there being seven railroads and two rivers. A good supply of filtered water is furnished from the Ohio river.

Coal can be bought at from \$1.25 to \$2.00 per ton.

Cairo has a fire department with three fire stations, twenty churches, three banks, six graded and two high schools, with manual training a part of the school curriculum.

Two daily and three weekly newspapers are published. Corn, wheat, and oats are grown in this vicinity. There are seventy manufacturing industries located here. Any concern wishing fine transportation facilities would be suited to this locality, several hundred acres of land adjoining the railroads or rivers would be available and suitable for sites, and several thousand persons could be secured for employment.

CAMBRIDGE, HENRY COUNTY.

Population in 1910, 1,272. Situated on the Chicago, Rock Island and Pacific Railroad and is the county seat.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by plant at 40 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$3.25 per ton.

Cambridge has five churches, three banks, one graded and one high school. Three weekly newspapers are published.

Cambridge is surrounded by farms which produce corn, rye, oats, barley and hay. Clay of a commercial value is found here. There is one manufacturing industry located here. Any industry wishing to locate here could secure considerable land close to the railroad for a site, and plenty of help could be secured for employment.

CAMP POINT, ADAMS COUNTY.

Population in 1910, 1,148. Situated on the C. B. & Q. and Wabash Railroads about 20 miles northeast of Quincy, the county seat. Tax rate for county purposes 65 cents. Township 10 cents and city \$1.20.

International money order postoffice. Electric light plant, electricity being furnished at from 10 cents to 15 cents per kilowatt.

Good facilities for receipt and shipment of freight. A good supply of water for household purposes is supplied from deep wells. Coal can be bought for \$3.00 per ton. Camp Point has two small fire engines, four churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. There is one creamery located here which employs 5 men. Any industry wishing to locate here could secure 50 acres of land adjoining the railroad for a site.

CARBON HILL, GRUNDY COUNTY.

Population in 1910, 820. Situated on the Elgin, Joliet & Eastern railroad. This is a coal mining town, the railroad being only for the purpose of hauling coal. Carbon Hill has one church and one graded school. This town is not suitable for any manufacturing industry.

CARMi, WHITE COUNTY.

Population in 1910, 2,833. Situated on Louisville & Nashville, and Cleveland, Cincinnati, Chicago & St. Louis railroads and is the county seat.

International money order postoffice. Electric light plant, electricity being furnished at $7\frac{1}{2}$ cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant, the cost to factories is \$25.00 per year. Coal can be bought for \$1.10 per ton.

Carmi has a volunteer fire department, ten churches, three banks, three graded and one high school. One semi-weekly and two weekly newspapers are published.

Carmi is surrounded by farms which produce corn, oats and wheat. Clay and shale of a commercial value are found here. There are nine manufacturing industries located here which employ 61 men and 16 women.

Any industry wishing to locate here could secure plenty of land adjoining the railroad and about 200 men and 400 women could be secured for employment.

CARPENTERSVILLE, KANE COUNTY.

Population in 1910, 1,128. Situated on the Chicago & Northwestern railroad about 15 miles north of Geneva, the county seat.

Tax rate for county purposes 60 cents. Township 5 cents and city \$1.37.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at $13\frac{1}{2}$ cents per kilowatt. Fair facilities for receipt and shipment of freight. The city will vote on proposition to install water works next spring, good prospects for same to carry. Coal can be bought for \$2.75 per ton.

Carpentersville has two churches, one bank, one graded and one high school, with manual training a part of the school curriculum.

One weekly newspaper is published.

Carpentersville is surrounded by farms which produce corn, wheat, oats and other agricultural products. Sand and gravel of a commercial value are found here. There are three manufacturing industries located here which employ 510 men and 39 women. Any industry wishing to locate here could secure 10 or 15 acres of land with the railroad running through same. At least 200 persons could be secured for employment. As an inducement for the location of a factory, the citizens would possibly donate the site.

CASEY, CLARK COUNTY.

Population in 1910, 2,157. Situated on the Vandalia, and the Cincinnati, Hamilton & Dayton railroads.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A fair supply of water is furnished by standpipe at a cost of 15 cents per 1,000 gallons. Coal can be bought for \$2.00 per ton.

Casey has the latest devices for fighting fires. The city has nine churches, three banks, two graded and one high school, with manual training as a part of the school curriculum. Two newspapers are published here.

Casey is surrounded by farms which produce fruit and vegetables. Coal and limestone are found here, there are also oil and gas wells. There are three manufacturing industries located here which employ about 60 persons.

There are 80 acres of land adjoining the railroads which is available and suitable for factory sites, and at least 500 persons could be secured for employment. The citizens are very desirous of having factories locate here. The Commercial Club will furnish free sites and some financial aid as inducements in securing new industries for the city.

CERRO GORDO, PIATT COUNTY.

Population in 1910, 876. Situated on the Wabash and an electric railway.

International money order postoffice. Electric light plant, electricity being furnished at 15 cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished by wells and water mains at a cost of 15 cents per 1,000 gallons. Coal can be bought for \$2.50 per ton. Cerro Gordo has two hose carts and 800 feet of hose with a water pressure of 45 pounds at hydrants for fighting fires. The city has five churches, two banks, one graded and one high school. Two weekly newspapers are published.

Cerro Gordo is surrounded by farms which produce corn, wheat, oats and other products raised in the corn belt. This is practically an agricultural district.

CHAMPAIGN, CHAMPAIGN COUNTY.

Population in 1910, 12,421. Situated on the Illinois Central; Cleveland, Cincinnati, Chicago & St. Louis; Wabash and electric railroads and adjoins Urbana, the county seat. Tax rate for county purposes 50 cents and township \$1.34.

International money order postoffice. Gas and electric light plants. Gas being furnished to factories at \$1.00 per 1,000 cubic feet and electricity at 12½ cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished by Urbana and Champaign Water Company at 6 cents per 1,000 gallons.

Coal can be bought for \$1.50 per ton.

Champaign has a paid fire department, ten churches, six banks, eleven graded and one high school, with manual training a part of the school curriculum. The Illinois State University is located here. Three daily newspapers are published.

Champaign is surrounded by farms which produce corn, wheat, oats, fruit and other products raised in the corn belt.

There are about fourteen manufacturing industries located here. There are about 100 acres of land available and suitable for additional factory sites, and about 500 persons could be secured for employment.

CHATSWORTH, LIVINGSTON COUNTY.

Population in 1910, 1,112. Situated on the Toledo, Peoria & Western and Illinois Central railroads.

Tax rate for city purposes \$2.50.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished from deep wells by air pressure, a special rate being made to factories. Coal can be bought for \$1.50 per ton.

Chatsworth has good fire protection, five churches, two banks, and two graded schools which include high school courses.

Chatsworth is surrounded by farms which produce corn, wheat, oats and other products. Clay and sand of a commercial value are found here. There are five manufacturing industries located here. Any industry wishing to locate here, could secure any amount of land near the railroad for a site, and plenty of help could be secured for employment. Some inducements would be given by the citizens in securing additional factories.

CHESTER, RANDOLPH COUNTY.

Population in 1910, 2,747. Situated on the Mississippi river; St. Louis, Iron Mountain & Southern; Wabash, Chester & Western, and Illinois Southern railroads and is the county seat.

Tax rate for county purposes 52 cents and city \$1.10. International money order postoffice. Electric light plant, electricity being furnished at 8 cents per kilowatt. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished from waterworks, at a cost of 10 cents to 30 cents per 1,000 gallons, according to quantity used. Coal can be bought for \$1.60 per ton.

Chester has a volunteer fire department, eight churches, three banks, nine graded and one high school. Two weekly newspapers are published.

Chester is surrounded by farms which produce corn wheat, oats, fruit and vegetables. Coal, clay, sand and stone of a commercial value are found here. There are eight manufacturing industries located here which employ 152 men and 120 women.

Any industry wishing to locate here would be welcomed by the citizens, about a mile of river front and other lands, most of it adjoining the three railroads, would be available and very desirable for factory sites. About 500 persons could be secured in this and adjoining cities for employment. The Chester Business Club offers very liberal inducements to secure additional factories for the city.

CHICAGO HEIGHTS, COOK COUNTY.

Population in 1910, 14,525. Situated on the Chicago & Eastern Illinois; Southern Indiana; Michigan Central; Elgin, Joliet and Eastern and an electric railroad, and is about 27 miles south of Chicago.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks plant at a cost of 4 cents to 15 cents per 1,000 gallons, according to the quantity used. Coal can be bought for \$1.75 per ton.

Chicago Heights has a good fire department, about fifteen churches, three banks, ten graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. Clay of a commercial value is found here. There are about forty-five manufacturing industries located here.

There are at least 500 acres of land, all located on the railroads, which would be available and suitable for any industry seeking a site. Any amount of help desired could be secured for employment.

CLINTON, DEWITT COUNTY.

Population in 1910, 5,516. Situated on three lines of the Illinois Central railroad and also an electric line and is the county seat.

Tax rate for county purposes 45 cents. Township 10 cents and city \$1.32.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.25 per 1,000 cubic feet and electricity at 20 cents per kilowatt. Good facilities for receipt and shipment of freight. Water is furnished by pumps, a special rate would be made to factories. Coal can be bought for \$1.50 per ton. Clinton has a paid fire department, nine churches, three banks, four graded and one high school, with manual training a part of the school curriculum. Two daily and one weekly newspapers are published. Clinton is surrounded by farms which produce corn, wheat, oats and other products grown in central Illinois. Clay and sand of a commercial value are found here. Any manufacturing industry seeking a location could secure any amount of land desired, adjoining the railroad, and plenty of help could be secured for employment. The citizens offer some inducements to secure the location of factories here.

COAL CITY, GRUNDY COUNTY.

Population in 1910, 2,667. Situated on the Atchison, Topeka & Santa Fé; Elgin, Joliet & Eastern, and the Chicago & Alton railroads.

Tax rate for county purposes 40 cents. Township 18 cents and city \$1.20.

International money order postoffice. Electric light plant, electricity being furnished at 3 cents per kilowatt for power and 9 cents for lighting. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant at a cost of 5 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.50 per ton.

Coal City has four churches, one bank and ten graded schools. One weekly newspaper is published here. Coal is the principal product and is mined here in large quantities. Clay and sand of a commercial value are also found here. There are three manufacturing industries located here, which employ 225 men and 100 women. There are 200 acres of land adjoining the railroads, which is available and suitable for additional factory sites and at least 500 men and 200 women could be secured for employment.

The citizens would give the sites free, as inducements to secure additional factories.

COLUMBIA, MONROE COUNTY.

Population in 1910, 2,076. Situated on the Mobile and Ohio railroad about 8 miles north of Waterloo, the county seat.

Tax rate for county purposes 75 cents. Electric light plant. Fair facilities for receipt and shipment of freight. Water is furnished by wells. Coal can be bought for \$1.45 per ton.

Columbia has a volunteer fire department, four churches, one bank, one public and one private graded school. One weekly newspaper is published.

Columbia is surrounded by farms which produce corn and wheat.

Limestone of a commercial value is found here. There are two manufacturing industries located here which employ 130 men. A brick yard, canning factory and shoe factory would be suited to this locality, 30 to 40 acres of land adjoining the railroad would be available and suitable for factory sites and plenty of help could be secured in this and adjoining cities for employment. The citizens would probably give the sites free to secure additional factories.

CUBA, FULTON COUNTY.

Population in 1910, 2,019. Situated on the Toledo, Peoria & Western and Chicago, Burlington & Quincy railroads about 10 miles north of Lewistown, the county seat.

International money order postoffice. Electric light plant, electricity being furnished at 10 cents per kilowatt. Good facilities for receipt and shipment of freight. Water is furnished from wells. Coal can be bought for \$1.40 per ton.

Cuba has three churches, two banks and one graded school. One weekly newspaper is published.

Cuba is surrounded by farms which produce corn and wheat. Coal is mined here in large quantities. Any factory seeking a location could secure plenty of ground here, and plenty of help could be secured for employment.

DANVILLE, VERMILION COUNTY.

Population in 1910, 27,871. Situated on the Wabash; Chicago & Eastern Illinois; two branches of the Cleveland, Cincinnati, Chicago & St. Louis, and an electric railroad and is the county seat.

Tax rate for county purposes 46 cents. Township 4 cents and city \$1.46.

International money order postoffice. Gas and electric light plants, gas being furnished at 85 cents to \$1.12½ per 1,000 cubic feet and electricity at 2 cents to 13½ cents per kilowatt. A good supply of water is furnished from private waterworks plant. Good facilities for receipt and shipment of freight. Coal can be bought for \$1.25 per ton.

Danville has a paid fire department, thirty-seven churches, six banks, fourteen graded and one high school, with manual training a part of the school curriculum. Two daily newspapers are published.

Danville is surrounded by farms which produce corn, wheat, oats and other products raised in central Illinois. Shale, clay and sand of a commercial value are found here.

There are fifteen manufacturing industries located here, which employ 2,496 men and 78 women. There are about 500 acres of land, adjoining the railroads, which is available and suitable for additional factory sites, and any amount of help could be secured for employment. The Danville Industrial Club will give free sites to any factory wishing to locate here.

DECATUR, MACON COUNTY.

Population in 1910, 31,140. Situated on the Wabash; Vandalia; Cincinnati, Hamilton & Dayton; Illinois Central, and an electric railroad and is the county seat.

Tax rate for county purposes 48 cents. Township 61 cents and city \$1.67.

International money order postoffice. Gas and electric light plant, gas being furnished at \$1.10 per 1,000 cubic feet and electricity at 10 cents to 15 cents per kilowatt, with a discount of 10 per cent to 40 per cent, according to the amount used each month. A good supply of water is furnished by city plant at a cost of 5 cents to 8 cents per 1,000 gallons, according to the amount used each quarter. Excellent facilities for receipt and shipment of freight. Coal can be bought for \$1.25 per ton. Decatur has a paid fire department, forty churches, four banks, fourteen graded and one high school, with manual training a part of the school curriculum. Two daily and one weekly newspapers are published.

Decatur is surrounded by farms which produce corn, wheat, oats and other products raised in the corn belt of Illinois. Clay, sand and gravel of a commercial value are found here.

There are about 200 manufacturing industries located here. Any industry seeking a location could secure an unlimited amount of land, with a frontage on the railroad, and plenty of help could be secured for employment. There is a vacant plant here, with three brick buildings, of three stories each, which could probably be secured by a concern wishing it.

The Decatur Chamber of Commerce will furnish free sites to factories desiring to locate here.

DOWNERS GROVE, DUPAGE COUNTY.

Population in 1910, 2,601. Situated on the Chicago, Burlington and Quincy railroad.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Good water supply from artesian wells. Coal can be bought for \$1.65 per ton.

Downers Grove has standpipe and direct pump for fire fighting. This city has six churches, two banks, two graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Downers Grove is surrounded by farms which produce corn, oats, wheat, hay and dairy products. There are three manufacturing industries located here which employ 40 men. Any new industry seeking a location, could secure any amount of land desired adjoining the railroad for a site, and at least 200 persons could be secured for employment. The citizens will give free sites, as an inducement to secure additional factories to locate here.

DUQUOIN, PERRY COUNTY.

Population in 1910, 5,454. Situated on the Illinois Central railroad.

Tax rate for county purposes 60 cents and city \$1.20.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 to \$1.25 per 1,000 cubic feet and electricity at 3 cents to 10 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by water company at a cost of 3 cents to 10 cents per 1,000 gallons. Coal can be bought for \$1.50 per ton.

The city is provided with a good fire department.

DuQuoin has eight churches, three banks, eight graded and four high schools. Two daily and two weekly newspapers are published. DuQuoin is surrounded by farms which produce broom-corn, corn, wheat and oats. A good supply of clay of a commercial value is found here. There are six factories located here, which employ 64 men and 3 women. There is land adjoining the railroad which is available and suitable for additional factory sites, and plenty of help, especially women, could be secured for employment. The city will give free taxes to factories locating here.

EARLVILLE, LASALLE COUNTY.

Population in 1910, 1,059. Situated on the Chicago, Burlington & Quincy, and Chicago & Northwestern railroads.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Water is furnished by stand-pipe. Organized fire department. Coal can be bought for \$2.25 per ton. Earlville has four churches, two banks, one graded and one high school. One weekly newspaper is published. A good supply of clay is found here. Two manufacturing industries are located here which employ 18 men. Any factory seeking a location could secure 40 acres of land adjoining the railroads for a site, and about 50 persons could be secured for employment.

EAST DUBUQUE, JO DAVIESS COUNTY.

Population in 1910, 1,253. Situated on the Mississippi river, about 14 miles northwest of Galena, the county seat.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight, there being besides the river, four railroads. Good supply of water furnished by stand-pipe. The city has ample fire protection. Coal can be bought for \$3.00 per ton. East Dubuque has two churches, one bank, six graded and one high school. One newspaper is published. Sand and clay of a commercial value are found here. There are four factories located here, which employ 26 men. There are at least 100 acres of land, lying between the railroad and river which is available and suitable for factory sites, and 100 men and 100 women could be secured for employment. The citizens would give some assistance in securing factories to locate here.

EAST ST. LOUIS, ST. CLAIR COUNTY.

Population in 1910, 58,547. Situated on the Mississippi river.

Tax rate for county purposes 48 cents and city \$1.38.

International money order postoffice. Gas and electric light plants, gas being furnished to factories at 75 cents per 1,000 cubic feet and electricity at 5 cents per kilowatt. As good facilities for receipt and shipment of freight, as any city in the United States, there being besides the river, twenty-two railroads.

An excellent supply of water is furnished by city water company at 5 cents to 7 cents per 1,000 gallons. Excellent fire department. Coal can be bought for \$1.00 per ton.

East St. Louis has twenty churches, four banks, twenty-two graded and two high schools, with manual training a part of the school curriculum. Two daily and two weekly newspapers are published.

East St. Louis is surrounded by farms which produce corn, wheat, oats, potatoes and other garden products. Clay, sand and stone of a commercial value are found here, there are also many coal mines located in this vicinity.

East St. Louis is the largest horse and mule market in the world, five of the largest packing houses are also located here, besides these there are fifty-one factories which employ 9,814 men and 300 women. Any manufacturing industry seeking a location, could secure any amount of land desired, adjoining the railroad, and plenty of help could be secured for employment.

Woolen, cotton, shoe and glass factories would be well suited to this locality, although the citizens would welcome any kind of additional manufacturing industries, and would probably donate sites and give some financial aid in securing factories to locate here.

EDWARDSVILLE, MADISON COUNTY.

Population in 1910, 5,014. Situated on Toledo, St. Louis & Western railroad, about 8 miles east of the Mississippi river and is the county seat.

The total tax rate on city property is about \$5.75.

International money order postoffice. Electric light plant, electricity being furnished at 3 cents to 12 cents per kilowatt. Excellent facilities for receipt and shipment of freight, there being four railroads and three interurban lines. A good supply of water is furnished from deep wells, at 8 cents per 1,000 gallons. The city has a paid fire department. Coal can be bought for 90 cents per ton.

Edwardsville has nine churches, three banks, one graded and one high school. One daily and semi-weekly and one weekly newspapers are published.

There are a number of coal mines in this vicinity, besides these there are about ten manufacturing industries located here. There is an unlimited amount of land near the railroads which is available and suitable for factory sites, and at least 1,000 persons could be secured for employment. There are no special inducements offered by the citizens to secure additional factories.

ELGIN, KANE COUNTY.

Population in 1910, 25,976. Situated on the Chicago, Milwaukee & St. Paul and the Chicago & Northwestern railroads.

Tax rate for county purposes 60 cents. Township 4 cents and city \$1.13.

International money order postoffice. Gas and electric light plant, gas being furnished at 50 cents to \$1.00 per 1,000 cubic feet and electricity at 4 cents to 8 cents per kilowatt. Good facilities for receipt and shipment of freight, there being besides the two steam railroads, four electric lines. A good supply of water is furnished by city waterworks, at 6 cents to 18 cents per 1,000 cubic feet. Good fire department, with seven stations. Coal can be bought for \$4.50 per ton.

Elgin has twenty-six churches, six banks, fourteen graded and one high school, with manual training a part of the school curriculum.

Two daily and three weekly newspapers are published. Dairy products and vegetables are produced to a great extent in this community. Large deposits of gravel are found here. There are about sixty manufacturing industries located here, which employ about 3,929 men and 2,514 women. Any manufacturing industry seeking a location, could secure any amount of land required, adjoining the railroad, and at least 1,200 persons could be secured for employment. The inducements offered by the citizens, will depend entirely upon the value of the industry, and the number of persons which they will employ.

ELMWOOD, PEORIA COUNTY.

Population in 1910, 1,390. Situated on the Chicago, Burlington & Quincy railroad. International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from city plant. The city is provided with hose carts for fire fighting. Coal can be bought for \$2.00 per ton.

Elmwood has four churches, one bank, one graded and one high school. One weekly newspaper is published. There is one industry

located here which employs eight men. There is plenty of land close to the railroad available for a factory site, but only about 25 persons could be secured in this city for employment.

EUREKA, WOODFORD COUNTY.

Population in 1910, 1,525. Situated on the Toledo, Peoria & Western, and, Atchison, Topeka & Santa Fé railroads and is the county seat. This city has no manufacturing industries, and does not desire any.

EVANSTON, COOK COUNTY.

Population in 1910, 24,978. Situated on Lake Michigan, about 12 miles north of Chicago.

Evanston is a suburb of Chicago and is essentially a city of homes, and does not want any manufacturing concerns to locate there.

FAIRBURY, LIVINGSTON COUNTY.

Population in 1910, 2,505. Situated on the Toledo, Peoria & Western, and the Wabash railroads, about 12 miles southeast of Pontiac, the county seat.

Tax rate for county purposes 30 cents. Township 4 cents and city \$1.27.

International money order postoffice. Electric light plant; electricity being furnished at $3\frac{1}{2}$ cents to 10 cents per kilowatt. Fair facilities for receipt and shipment of freight. Water is furnished from deep wells, at 30 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Fairbury has seven churches, five banks, two graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. Coal, sand and gravel of a commercial value are found here. There is a tract of five acres adjoining the railroad which is available for a factory site, and plenty of help could be secured for employment.

FARMER CITY, DEWITT COUNTY.

Population in 1910, 1,603. Situated on the Cleveland, Cincinnati, Chicago & St. Louis, and the Illinois Central railroads.

International money order postoffice. Electric light plant, electricity being furnished at 15 cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished by the city, from artesian wells, at 15 cents per 1,000 gallons. The city has a volunteer fire department. Coal can be bought for \$1.88 per ton.

Farmer City has six churches, two banks and one graded school. Two weekly newspapers are published.

Farmer City is surrounded by farms which produce corn, wheat and oats. There is a good coal vein here, but it is undeveloped. Clay and sand of a commercial value are found here. There are three industries

here which employ 32 men and 1 woman. Industries which would be well suited to this locality are paper mill, foundry, coal mine, canning factory and ice factory. Any industry seeking a location, could secure considerable land adjoining the railroad for a site, and about 200 persons could be secured for employment. The citizens will give some inducements in securing desirable industries for the city.

FARMINGTON, FULTON COUNTY.

Population in 1910, 2,421. Situated on Iowa Central, and the Chicago, Burlington & Quincy railroads.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Good supply of water furnished from deep wells. The city has ample fire protection. Coal can be bought for \$1.55 per ton.

Farmington has twelve churches, two banks, two graded and one high school. Coal and clay of a commercial value are found here. Any industry seeking a location could secure 20 acres of land adjoining the railroad and about 1,000 persons could be secured in this vicinity for employment. The citizens are very desirous of having factories locate here, and liberal inducements will be offered to any seeking a location.

FLORA, CLAY COUNTY.

Population in 1910, 2,704. Situated on the two lines of the Baltimore & Ohio railroad, about 7 miles south of Louisville, the county seat.

International money order postoffice. Electric light plant, electricity being furnished at 10 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from deep wells at present, but the city is constructing waterworks and sewerage system. The city has ample fire protection. Coal can be bought for 90 cents per ton. Flora has ten churches, two banks, three graded and one high school. Two weekly newspapers are published.

Flora is surrounded by farms which produce corn, wheat, oats and potatoes. The Baltimore & Ohio Railroad shops are located here and employ 300 men. Any industry seeking a location could secure any amount of land desired adjoining the railroad as a site, and plenty of help could be secured for employment.

FORRESTON, OGLE COUNTY.

Population in 1910, 870. Situated on the Chicago, Burlington & Quincy and the Illinois Central railroads.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city water plant. The city has ample fire protection. Coal can be bought for 80 cents per ton.

Forreston has seven churches, one bank, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. There is one manufacturing industry

located here which employs 12 men and 30 women. Any additional concerns seeking a location, could secure any amount of land desired adjoining the railroads, and plenty of help could be secured for employment.

The citizens would probably furnish free sites and give some financial aid in securing desirable manufacturing industries.

FREEPORT, STEPHENSON COUNTY.

Population in 1910, 17,567. Situated on the Chicago, Milwaukee & St. Paul; Illinois Central; Chicago & Northwestern; and an electric railroad and is the county seat.

International money order postoffice. Gas and electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks. The city has a paid fire department.

Freeport has fifteen churches, five banks, seven graded and one high school, with manual training a part of the school curriculum. Four newspapers are published. There are thirteen manufacturing industries located here which employ 2,625 men and 125 women.

GALENA, JO DAVIESS COUNTY.

Population in 1910, 4,835. Situated on the Illinois Central; Chicago, Burlington & Quincy, and the Chicago & Northwestern railroads, and is the county seat.

Tax rate for county purposes 65 cents. Township 25 cents and city \$3.00.

International money order postoffice. Gas and electric light plant, gas being furnished for \$1.75 per 1,000 cubic feet and electricity at 2 cents to 15 cents per kilowatt.

Good facilities for receipt and shipment of freight. A good supply of water is furnished from artesian wells, at 10 cents to 20 cents per 1,000 gallons. The city has a good fire department. Coal can be bought for \$2.00 per ton.

Galena has nine churches, two banks, four graded and one high school, with manual training a part of the school curriculum. One daily and one weekly, newspapers are published. Lead, zinc, clay and limestone are found here. There are twelve manufacturing industries here, which employ 145 men and 40 women. Any industry seeking a location could secure about 20 acres of land adjoining the railroad, which is available and suitable for a site, and about 200 men and 50 women could be secured for employment.

GENEVA, KANE COUNTY.

Population in 1910, 2,451. Situated on the Chicago & Northwestern, and an electric railroad, and is the county seat.

Tax rate for county purposes 60 cents. Township 79 cents and city \$1.43.

International money order postoffice. Gas and electric light plant, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 10

cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished by the city at 12½ cents per 1,000 gallons. The city has a volunteer fire department of twenty men. Coal can be bought for \$3.30 per ton.

Geneva has seven churches, two banks, two graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. There are eight manufacturing industries here, which employ 365 men and 25 women. Any industry seeking a location would be welcomed by the citizens, there is any amount of land desired close to the railroad available and suitable for a site, and plenty of help could be secured for employment. A site would probably be furnished free to any concern locating here.

GENOA, DEKALB COUNTY.

Population in 1910, 1,257. Situated on the Chicago, Milwaukee & St. Paul, and the Illinois Central railroads, and an electric line.

Tax rate for county purposes 37 cents, township 36 cents and city \$2.83.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant at 7 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Genoa has four churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Sugar beets are raised in this vicinity, and clay of a commercial value is found here.

Genoa has three industries which employ 185 men and 75 women.

Any concern seeking a location could secure any amount of land desired adjoining the railroad for a site, and at least 200 persons could be secured for employment. The citizens would probably donate a site as an inducement, to secure any additional enterprise.

GERMANTOWN, CLINTON COUNTY.

Population in 1910, 711. Situated on the Southern railroad. Fair facilities for receipt and shipment of freight. Water is furnished from wells. The city has ample fire protection.

Germantown has one church, one bank, and two graded schools. Corn, wheat and oats are raised in this vicinity. There are three manufacturing industries located here. There are 10 acres of land, near the railroad, which would be available and suitable for a factory site, and about 300 persons could be secured for employment. Some inducements would be given by the citizens, to secure the location of any additional factories here.

GIBSON CITY, FORD COUNTY.

Population in 1910, 2,086. Situated on the Lake Erie and Western; Illinois Central, and the Wabash railroads.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Gibson City has eight churches, two banks and one graded school, and a high school is being constructed. Two weekly newspapers are published. Corn, oats and wheat are raised in this vicinity. There are five manufacturing industries located here which employ 234 men and 100 women. Any industry seeking a location would be welcomed by the citizens, and about 640 acres adjoining the railroad, would be available and suitable for a site, about 500 persons could be secured for employment.

The Gibson Commercial Club, will give inducements to secure the location of factories here.

GILMAN, IROQUOIS COUNTY.

Population in 1910, 1,305. Situated on the Illinois Central, and the Toledo, Peoria & Western railroads.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$1.80 per ton.

Gilman has six churches, two banks, one graded and one high school. One weekly newspaper is published. Corn, oats, wheat, clover and timothy hay are raised in this vicinity. Clay of a commercial value is found here. There is a tile and brick plant located here which employs about 15 men. Any manufacturing industry seeking a location, could secure plenty of land near the railroad for a site, and about 100 persons could be secured for employment. Some inducements would be given by the citizens to secure desirable industries for the city.

GIRARD, MACOUPIN COUNTY.

Population in 1910, 1,891. Situated on the Chicago, Burlington & Quincy; the Chicago & Alton; and an electric railroad.

Tax rate for county purposes 62 cents.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. The city has a poor supply of water, but has ample fire protection.

Girard has eight churches, two banks, two graded and one high school. One weekly newspaper is published. Coal and clay of a commercial value are found here. There is one industry located here.

Any additional industry seeking a location could secure 40 or 50 acres adjoining the railroad for a site, and about 200 persons could be secured for employment.

GLENCOE, COOK COUNTY.

Population in 1910, 1,899. Glencoe is a suburban residence community and offers no opportunities for the development of industrial firms.

GOLCONDA, POPE COUNTY.

Population in 1910, 1,088. Situated on the Ohio river, and the Illinois Central railroad, and is the county seat.

Tax rate for county purposes 75 cents and city 90 cents.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished from river and wells. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Golconda has eight churches, two banks, two graded and one high school. One weekly newspaper is published.

Wheat, beans and tomatoes are grown in this vicinity. Stone, lead and zinc are found here. There are six manufacturing industries located here. Any additional concerns seeking a location could secure at least 100 acres of land adjoining the railroad and river, and about 1,500 persons could be secured for employment. Free sites and exemption from city taxation for from three to five years, will be given as inducement in securing factories for the city.

GRANITE CITY, MADISON COUNTY.

Population in 1910, 9,903. Situated on the Chicago & Alton railroad about 5 miles north of East St. Louis.

Tax rate for county purposes 70½ cents. Township 7 cents and city \$3.00.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being seven railroads. A good supply of water is furnished from the Mississippi river. The city has ample fire protection. Coal can be bought for \$1.50 per ton.

Granite City has ten churches, three banks, three graded and one high school, with manual training a part of the school curriculum. Two daily newspapers are published. An abundance of white sand, and some clay are found here. There are twelve manufacturing industries located here which employ 9,075 men and 900 women. There are 1,000 acres of land, most of which adjoins the railroads, which is available and suitable for factory sites and 10,000 persons could be secured in this vicinity for employment. The Commercial Club will give some inducements to secure factories for the city.

GRAYVILLE, WHITE COUNTY.

Population in 1910, 1,940. Situated on Wabash river.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight, there being besides the river, two railroads. A good supply of water is furnished by waterworks. The city has ample fire protection.

Grayville has eight churches, two banks, two graded and one high school. One newspaper is published. Coal and shale are found here. There are five manufacturing industries located here.

There is plenty of land adjoining the railroads, which is available and suitable for factory sites, and 200 persons could be secured for employment.

Any industry locating here will be exempt from city taxation and light and water will be furnished at cost.

GRIGGSVILLE, PIKE COUNTY.

Population in 1910, 1,262. Situated on the Wabash railroad. Tax rate for county purposes 65 cents. Township \$1.40 and city \$4.00.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from wells. The city has ample fire protection. Coal can be bought for \$3.00 per ton.

Griggsville has four churches, two banks, one graded and one high school. Two weekly newspapers are published. Wheat and corn are grown in this vicinity. Clay of a commercial value is found here. The only industry located here is a flour mill. There is plenty of land available for factory sites and plenty of help could be secured for employment. There are no inducements offered to secure factories for the city.

HARRISBURG, SALINE COUNTY.

Population in 1910, 5,309. Situated on the Cleveland, Cincinnati, Chicago & St. Louis; and Galatia, Harrisburg and Southeastern railroads, and is the county seat.

Tax rate for county purposes \$1.05. Township 28 cents and city \$1.65.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Plenty of water is furnished by waterworks, but not of the best quality for household purposes. The city has an organized fire department.

Harrisburg has twelve churches, four banks, four graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. Corn and tomatoes are grown in this vicinity. Coal and clay of a commercial value are found here. There are two manufacturing industries located here which employ 75 men. Any industry seeking a location could secure any amount of land desired, near or adjoining the railroad, and about 1,000 men and 500 women could be secured for employment. The citizens will give as inducements in securing factories, either a free site or a cash bonus.

HARVARD, McHENRY COUNTY.

Population in 1910, 3,008. Situated on the Chicago & Northwestern railroad. International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from artesian wells. The city has ample fire protection. Coal can be bought for \$2.65 per ton.

Harvard has six churches, two banks, two graded and one high school, with manual training a part of the school curriculum. Two weekly

newspapers are published. There are four manufacturing industries located here which employ 259 men and 15 women. There are 400 acres of land adjoining the railroad which is available and suitable for additional factory sites, and 400 persons could be secured for employment. Good inducements will be offered by the citizens in securing desirable industries for the city.

HARVEY, COOK COUNTY.

Population in 1910, 7,227. Situated on the Illinois Central, Chicago & Eastern Illinois, and Grand Trunk railroads.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished by a private corporation. The city has ample fire protection. Coal can be bought for \$1.50 per ton.

Harvey has ten churches, two banks, six graded and one high school, with manual training a part of the school curriculum. Two newspapers are published. There are sixteen manufacturing industries located here which employ 4,130 men. There are 300 acres of land near the railroads which are available and suitable for factory sites, and over 1,000 persons could be secured for employment. The citizens will give free sites and some financial aid as inducements in securing additional enterprises for the city.

HENRY, MARSHALL COUNTY.

Population in 1910, 1,687. Situated on the Illinois river, and the Chicago, Rock Island & Pacific railroad.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Henry has eleven churches, two banks, two graded and two high schools, with manual training a part of the school curriculum. Two newspapers are published. There are ten acres of land close to the railroad and river, which is available and suitable for factory sites, and plenty of help could be secured for employment. The citizens will give some inducements to secure factories for the city.

HERRIN, WILLIAMSON COUNTY.

Population in 1910, 6,861. Situated on the St. Louis, Iron Mountain & Southern; Illinois Central; Chicago, Burlington & Quincy, and the Chicago, Zeigler & Gulf railroads. Tax rate for county purposes 36 cents. Township 6 cents and city \$1.52.

International money order postoffice. Electric light plant. Excellent facilities for receipt and shipment of freight. A waterworks plant is being installed at the present time. The city has ample fire protection. Coal can be bought for \$1.15 per ton.

Herrin has six churches, three banks, two graded and one high school, with manual training a part of the school curriculum. Two newspapers are published. This is a good coal mining district. There are two manufacturing industries located here which employ 17 men.

There are 500 acres of land adjoining the railroads which is available and suitable for factory sites, and plenty of help could be secured for employment. Liberal inducements would be given to secure factories for the city.

HIGHLAND PARK, LAKE COUNTY.

Population in 1910, 4,209. Situated on Lake Michigan. There is one steam and one electric railroad through this city.

This is a residence city only, no factories are permitted to locate here.

HIGHWOOD, LAKE COUNTY.

Population in 1910, 1,219. Situated on Lake Michigan. Tax rate for county purposes 75 cents. Township 9 cents and city \$2.17.

International money order postoffice. Gas and electric light plant, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 10 cents per kilowatt.

Good facilities for receipt and shipment of freight, there being besides the lake two railroads. A good supply of water is furnished by plant at 11 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$3.00 per ton.

Highwood has two churches, one graded and one high school, with manual training a part of the school curriculum. There are four square blocks of property, located along switch tracks, which is available and suitable for factory sites, and 500 persons could be secured for employment.

Some inducements might be given by the citizens to secure factories for the city.

HINSDALE, DUPAGE COUNTY.

Population in 1910, 2,451. Situated on the Chicago, Burlington & Quincy railroad.

Hinsdale is a suburb of Chicago and is a residence town only, its citizens do not desire any manufacturing industries to locate here.

HOOPESTON, VERMILION COUNTY.

Population in 1910, 4,698. Situated on the Lake Erie & Western, and the Chicago & Eastern Illinois railroads.

International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$1.60 per ton.

Hoopeston has twelve churches, two banks, three graded and one high school, with manual training a part of the school curriculum. Two

daily newspapers are published. Corn and oats are raised in this vicinity. There are seven industries located here which employ 580 men and 380 women.

There are 100 acres of land, located on switch track, which is available and suitable for factory sites, and 200 persons could be secured for employment. Inducements in the way of sites and financial aid would be given to secure the location of desirable enterprises here.

JACKSONVILLE, MORGAN COUNTY.

Population in 1910, 15,326. Situated on the Wabash; Chicago & Alton; Chicago, Burlington & Quincy; and the Chicago, Peoria & St. Louis railroads, and is the county seat. Tax rate for county purposes 81 cents and city \$1.75.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant at a cost of 8 cents to 10 cents per 1,000 gallons.

Jacksonville has fifteen churches, five banks and one high school, with manual training a part of the school curriculum. Two daily and three weekly newspapers are published. Clay of a commercial value is found here. There are eleven manufacturing industries located here which employ 578 men and 206 women. There is plenty of land adjoining the railroads which is available and suitable for factory sites, and about 1,000 persons could be secured for employment. For inducements offered to factories seeking a location, address the secretary of the Business Mens' Association, Jacksonville, Illinois.

JERSEYVILLE, JERSEY COUNTY.

Population in 1910, 4,113. Situated on the Chicago & Alton, and the Chicago, Peoria & St. Louis railroads, and is the county seat. Tax rate for county purposes 75 cents. Township 10 cents and city \$1.20.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks. The city has ample fire protection. Coal can be bought for \$1.40 per ton.

Jerseyville has eight churches, three banks, one graded and one high school. One daily and two weekly newspapers are published. Wheat, corn and oats are raised in this vicinity. Clay of a commercial value is found here. There are two industries located here. There is plenty of land, on or near the railroads, which is available and suitable for factory sites, and 500 persons could be secured for employment. Inducements in the way of sites or financial aid will be given to secure factories for this city.

JOLIET, WILL COUNTY.

Population in 1910, 34,670. Situated on the Chicago & Alton railroad, and three other trunk lines and two belt lines, and is the county seat.

Tax rate for county purposes 40 cents. Township 37 cents and city \$1.70.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 3 cents to 10 cents per kilowatt for power. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished from artesian wells, at a cost of 5 cents to 12 cents per 1,000 gallons. The city has a well equipped fire department, with five engine stations. Coal can be bought for \$2.00 per ton.

Joliet has twenty-eight churches, five banks, twenty-two graded and one high school, with manual training a part of the school curriculum. Three newspapers are published here. Large quantities of limestone is found here. There are thirty-six manufacturing industries located here which employ 7,635 men and 526 women. Any factory wishing to locate here could secure any amount of land desired, adjoining one of the railroads. Help at the present time is scarce in this city, but plenty could probably be secured from adjoining cities. Citizens here offer no inducements to secure factories.

JONESBORO, UNION COUNTY.

Population in 1910, 1,169. Situated on the St. Louis, Iron Mountain & Southern railroad and is the county seat.

Tax rate for county purposes 75 cents and city \$2.50.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from wells and springs. The city has no fire protection. Coal can be bought for \$1.40 per ton.

Jonesboro has four churches, one bank, one graded and one high school.

One weekly newspaper is published. Stone and silica deposits are found here. There are two manufacturing industries located here which employ 19 men. Any industry seeking a location could secure 25 acres of land adjoining the railroad for a site, and 500 persons could be secured for employment. There are no inducements offered to secure factories for this city.

KANGLEY, LASALLE COUNTY.

Population in 1910, 380. Situated on the Chicago, Burlington & Quincy railroad. Fair facilities for receipt and shipment of freight. Water is furnished from wells. The city has ample fire protection.

Kangley has three churches and one graded school. Coal, clay and sand are found in this vicinity.

KANKAKEE, KANKAKEE COUNTY.

Population in 1910, 13,986. Situated on the Illinois Central, and four other railroads, and is the county seat.

International money order postoffice. Electric light plant, electricity being furnished to factories at 2 cents per kilowatt and to other con-

sumers at 12 cents per kilowatt. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished by private company at 15 cents per 1,000 gallons. The city has a paid fire department.

Kankakee has seventeen churches, five banks, seven graded and one high school, with manual training a part of the school curriculum. Two daily newspapers are published. Stone of a commercial value is found here. There are eleven large industries located here, besides these there are quarries, railroad shops and many smaller factories. There are 400 acres of land, near the railroads, which is available and suitable for factory sites, and 200 persons could be secured for employment. The citizens will donate the sites to secure additional factories.

KANSAS, EDGAR COUNTY.

Population in 1910, 945. Situated on the Cleveland, Cincinnati, Chicago & St. Louis, and the Cincinnati, Hamilton & Dayton railroads.

Tax rate for county purposes 75 cents. Township 20 cents and city \$3.40.

International money order postoffice. Electric light plant, electricity being furnished at 9 cents to 11 cents per kilowatt. Fair facilities for receipt and shipment of freight. The city has a good supply of water and ample fire protection. Coal can be bought for \$1.00 per ton. Kansas has three churches, two banks and one graded and one high school. One newspaper is published here. Corn, oats, wheat and broom corn are grown in this vicinity.

Coal and coal oil are found here. There are two manufacturing industries located here, one of these a canning factory, employs about 40 men and 75 women. There is plenty of land adjoining the railroads, which is available and suitable for factory sites, and 1,000 persons could be secured for employment. The citizens would probably give some inducements to secure additional factories.

KEITHSBURY, MERCER COUNTY.

Population in 1910, 1,515. Situated on the Mississippi river, and the Chicago, Burlington & Quincy, and the Iowa Central railroads.

Tax rate for county purposes 75 cents. Township 40 cents and city \$2.00.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight, both by rail and water. A good supply of water is furnished by waterworks system at a cost of 5 cents to 40 cents per 1,000 gallons, according to the quantity used. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Keithsbury has four churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Sand and gravel of a commercial value are found here. There are three manufacturing industries located here which employ 110 men and 1 woman.

There are 30 acres of land near the railroad which is available and suitable for a factory site, and plenty of help could be secured for employment. The citizens offer to donate the sites in order to secure additional factories for this city.

KEWANEE, HENRY COUNTY.

Population in 1910, 9,307. Situated on the Chicago, Burlington & Quincy railroad and an electric line.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.40 per 1,000 cubic feet and electricity at 7 cents to 15 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$2.25 per ton.

Kewanee has eighteen churches, four banks, six graded and one high school, with manual training a part of the school curriculum. One daily and one weekly newspapers are published. Corn, barley, wheat, oats and hay are grown in this vicinity. Coal and shale of a commercial value are found here. There are six industries located here. There are 50 acres of land, adjoining the railroad which is available and suitable for factory sites, and about 500 persons could be secured for employment. The citizens will give free sites and possibly some financial aid to secure additional factories.

KNOXVILLE, KNOX COUNTY.

Population in 1910, 1,818. Situated on the Chicago, Burlington & Quincy railroad.

International money order postoffice. Electric light plant, electricity being furnished at 10 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks from deep wells, at a cost of about 17 cents per 1,000 gallons. The city has a volunteer fire department.

Knoxville has seven churches, three banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Corn, wheat, oats, barley and rye are grown in this vicinity. A good quality of blue shale is found here. There are 25 acres of land adjoining the railroad available for factory sites, and 200 persons could be secured for employment. There are no inducements offered to secure the location of factories.

LADD, BUREAU COUNTY.

Population in 1910, 1,910. Situated on the Chicago, Burlington & Quincy; Chicago, Milwaukee & St. Paul; Chicago & Northwestern; and an electric railroad.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A fair supply of water is furnished from wells. The city has ample fire protection. Coal can be bought for \$2.25 per ton.

Ladd has three churches, one bank and one graded school. One weekly newspaper is published. Coal is found here. There are no manufacturing industries here, but any enterprise seeking a location could secure any amount of land desired, adjoining the railroad for a site, and plenty of help could be secured for employment. The citizens offer no inducements to secure factories.

LAHARPE, HANCOCK COUNTY.

Population in 1910, 1,349. Situated on the Toledo, Peoria & Western railroad.

International money order postoffice. Electric light plant, electricity being furnished at 10 cents to 20 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks. The city has ample fire protection. Coal can be bought for \$2.50 per ton.

LaHarpe has five churches, two banks, one graded and one high school. Three weekly newspapers are published. Wheat, corn, oats and rye are grown in this vicinity. A good supply of potter's clay is found at a distance of one mile from the railroad. There are two manufacturing industries located here which employ 8 men. There are 200 acres of land adjoining the railroad available for factory sites, and 50 persons could be secured for employment. The Business Mens' Association would possibly offer some inducements to secure factories.

LAKE FOREST, LAKE COUNTY.

Population in 1910, 3,349. Situated on Lake Michigan. This is a suburb of Chicago and is a residence city only. The citizens do not desire manufacturing industries of any kind.

LANARK, CARROLL COUNTY.

Population in 1910, 1,175. Situated on the Chicago, Milwaukee & St. Paul railroad.

Tax rate for county purposes 65 cents, township 12 cents and city 22 cents.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from city well and pumping station. The city has ample fire protection. Coal can be bought for \$3.00 per ton.

Lanark has seven churches, two banks, one graded and one high school. One weekly newspaper is published. Clay, sand and stones are found in this vicinity. There is one canning factory located here which employs 12 men and 30 women, five months out of each year.

There is an unlimited amount of land adjoining the railroad available for factory sites, and 100 persons could be secured for employment. The citizens would furnish free sites and some financial aid to secure factories.

LASALLE, LASALLE COUNTY.

Population in 1910, 11,537. Situated on the Illinois river. Tax rate for county purposes 45 cents, township 77 cents and city \$1.89.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being besides the river, four railroads. A good supply of water is furnished by city plant. The city has a paid fire department consisting of two stations. Coal can be bought for \$2.00 per ton.

LaSalle has ten churches, two banks, nine graded and one high school, with manual training a part of the school curriculum. Two daily newspapers are published. Clay, sand and stone are found here. There are five manufacturing industries located here. There are 80 acres of land, well located for factory sites and 1,000 persons could be secured for employment.

LEROY, MCLEAN COUNTY.

Population in 1910, 1,702. Situated on the Cleveland, Cincinnati, Chicago & St. Louis, and the Illinois Central railroads.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by water plant at a cost of 5 cents to 10 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$2.50 per ton.

LeRoy has four churches, two banks, two graded and one high school. Two weekly newspapers are published. Corn, oats and wheat are grown in this vicinity. A good quantity of clay is found here. There are three industries located here, and any other seeking a location could secure any amount of land desired near the railroad for a site, and 100 persons could be secured for employment. There are no inducements offered to secure factories for this city.

LEWISTOWN, FULTON COUNTY.

Population in 1910, 2,312. Situated on the Chicago, Burlington & Quincy railroad and is the county seat.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from pumping station, at a cost of 12 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$2.50 per ton.

Lewistown has ten churches, two banks, two graded and one high school, with manual training a part of the school curriculum. One daily and two weekly newspapers are published. Corn, wheat, oats and vegetables are grown in this vicinity. Coal, clay and sand are found here. There is a brick company located here which employs 15 men. There are 20 acres of land, adjoining the railroad, which is available and suitable for factory sites, and 200 persons could be secured for employment. Free sites and a reasonable bonus will be given to any desirable enterprises to induce them to locate here.

LEXINGTON, McLEAN COUNTY.

Population in 1910, 1,318. Situated on the Chicago & Alton railroad.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by gasoline engine. The city has ample fire protection. Coal can be bought for \$2.80 per ton.

Lexington has six churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Corn, oats and wheat are grown in this vicinity. There is plenty of land available for factory sites, but there are no inducements offered to secure any enterprises for this city.

LINCOLN, LOGAN COUNTY.

Population in 1910, 10,892. Situated on the Illinois Central; the Chicago & Alton; and interurban railroads and is the county seat. Tax rate for county purposes 75 cents and city \$1.52.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished from wells at a cost of 10 cents per 1,000 gallons. The city has a good fire department. Lincoln has fifteen churches, four banks, nine graded and one high school, with manual training a part of the school curriculum. Two daily and one weekly newspapers are published.

Clay, sand and gravel are found here. There are four manufacturing industries located here. Any enterprise seeking a location could secure any amount of land desired, near the railroad, and 300 persons could be secured for employment. Some inducements would be given by the citizens to secure desirable factories for the city.

LITCHFIELD, MONTGOMERY COUNTY.

Population in 1910, 5,971. Situated on the Chicago, Burlington & Quincy; Chicago & Alton; Cleveland, Cincinnati, Chicago & St. Louis; Litchfield & Madison; Wabash and Illinois Central railroads, and an interurban line. Tax rate for county purposes 47 cents. Township 31 cents and city \$4.91.

International money order postoffice. Gas and electric light plants, gas being furnished at 50 cents to \$1.50 per 1,000 cubic feet and electricity at 3 cents to 15 cents per kilowatt. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished by city water system, at a cost of 3 cents to 10 cents per 1,000 gallons. The city has a paid fire department. Mine run coal can be bought for \$1.25 per ton.

Litchfield has twelve churches, three banks, four graded and one high school.

Two daily and one weekly newspapers are published. Corn, wheat and oats are grown in this vicinity. Coal, clay, sand and stone are found in this vicinity. There are seven manufacturing industries located here, which employ 451 men and 5 women. The citizens are very desirous of

having factories locate here, well drained sites can be secured, which range in size from 1 to 20 acres, and having facilities for connections with all railroads. Larger sites are to be had if required. Free sites will be given to secure the location of factories here. For any information address Litchfield Industrial League, Litchfield, Illinois.

McHENRY, McHENRY COUNTY.

Population in 1910, 1,031. Situated on the Chicago & Northwestern railroad.

International money order postoffice. Electric light plant, electricity being furnished at 10 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. McHenry has five churches, two banks, two graded and one high school. One weekly newspaper is published. Corn, oats and barley are grown in this vicinity. There are five manufacturing industries located here which employ 109 men and 25 women. Any enterprise seeking a location could secure plenty of land near the railroad for a site, and 100 persons could be secured for employment. Some inducements would be given to secure desirable enterprises for this city.

MACOMB, McDONOUGH COUNTY.

Population in 1910, 5,774. Situated on the Chicago, Burlington & Quincy; and Macomb & Western Illinois railroads, and is the county seat.

Tax rate for county purposes 52 cents and city \$3.12½.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 to \$1.25 per 1,000 cubic feet, and electricity at 5 cents per kilowatt. Coal can be bought for \$1.85 per ton.

Macomb has fifteen churches, four banks, four graded and one high school, with manual training a part of the school curriculum.

The Western Illinois State Normal School is located here, also a conservatory of music and a commercial school. Two daily and three weekly newspapers are published. Corn, wheat and oats are grown in this vicinity. An excellent grade of clay is found here. There are about eight industries located here which employ about 550 men. There is plenty of land adjoining the railroads which is available and suitable for factory sites, and plenty of help could be secured for employment. Some inducements might be given to secure additional factories for this city.

MADISON, MADISON COUNTY.

Population in 1910, 5,046. Situated on the Mississippi river. Tax rate for county purposes 75 cents, township 11 cents and city 54 cents.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being

besides the river, eight railroads. A good supply of water is furnished by city water company. The city has ample fire protection. Coal can be bought for 90 cents per ton.

Madison has four churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Sand of a commercial value is found here. There are four manufacturing industries located here, which employ 3,450 men and 3 women. There are 40 acres of land near the railroad which is available and suitable for factory sites, and any number of persons could be secured for employment. There are no inducements offered to secure factories.

MARENGO, McHENRY COUNTY.

Population in 1910, 1,936. Situated on the Chicago & Northwestern, and electric railroads.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 13½ cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks at a cost of 8 cents to 10 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.50 per ton.

Marengo has six churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. There is plenty of land near the railroad available for factory sites, and 200 persons could be secured for employment. Some inducements would be given to secure desirable enterprises for this city.

MARION, WILLIAMSON COUNTY.

Population in 1910, 7,093. Situated on the Chicago & Eastern Illinois; Illinois Central; and Eldorado, Marion & Southwestern railroads.

Tax rate for county purposes 45 cents, township 40 cents and city \$2.20.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Water is furnished from deep wells. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Marion has sixteen churches, three banks, four graded and one high school. Two daily, one semi-weekly, and two weekly newspapers are published.

Wheat and corn are grown in this vicinity. Williamson county produces more coal than any other county in the State. Clay of a commercial value is also found here. There are no manufacturing industries located here, but any seeking a location could secure any amount of land desired, located on either railroad for a site, and 2,000 persons could be secured for employment. Some inducements would be given to secure the location of factories here.

MAROA, MACON COUNTY.

Population in 1910, 1,160. Situated on the Vandalia; Illinois Central; and electric railroads.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by water system, at a cost of 15 cents to 20 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.75 per ton.

Maroa has three churches, two banks, one graded and one high school. One weekly newspaper is published. Corn, wheat and oats are grown in this vicinity. There are five manufacturing industries located here which employ 33 men and 6 women. There is plenty of land adjoining the railroad available for additional factory sites, and 200 persons could be secured for employment.

MARSEILLES, LASALLE COUNTY.

Population in 1910, 3,291. Situated on the Rock Island & Pacific railroad.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. The city has a good supply of water and ample fire protection. Coal can be bought for \$2.00 per ton.

Marseilles has seven churches, one bank, three graded and one high school, with manual training a part of the school curriculum. One daily and one weekly, newspapers are published. Coal and clay of a commercial value are found here. There are seven manufacturing industries located here which employ 900 men. There are 100 acres of land near the railroad available for factory sites, and plenty of help could be secured for employment. Inducements in the way of free sites would possibly be given to secure additional factories to locate here.

MARSHALL, CLARK COUNTY.

Population in 1910, 2,569. Situated on the Vandalia, and the Cleveland, Cincinnati, Chicago & St. Louis railroads, and is the county seat.

International money order postoffice. Electric light plant, and natural gas. Fair facilities for receipt and shipment of freight. An excellent supply of water is furnished from driven wells at Big creek. The city has ample fire protection.

Marshall has seven churches, two banks, two graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. Clay, shale and limestone are found here. There are three manufacturing industries located here. There are 200 acres of land adjoining the railroads which would be available and suitable for factory sites, and at least 300 persons could be secured for employment.

The citizens are very anxious to secure additional manufacturing establishments, and will give some very liberal inducements to secure them.

MARTINSVILLE, CLARK COUNTY.

Population in 1910, 1,500. Situated on the Vandalia railroad.

International money order postoffice. Natural gas furnished at 25 cents per 1,000 cubic feet. Fair facilities for receipt and shipment of freight. Water is supplied from wells. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Martinsville has six churches, three banks and one high school. One weekly newspaper is published. There are 100 acres of land adjoining the railroad, which could be secured for factory sites, but there are no inducements offered by the citizens, to secure any kind of manufacturing industries.

MASCOUTAH, ST. CLAIR COUNTY.

Population in 1910, 2,801. Situated on the Louisville & Nashville, and electric railroads.

Tax rate for county purposes 63 cents, township 42 cents and city \$1.10.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Mascoutah has four churches, two banks, one graded and one high school. Two weekly newspapers are published. There are eight industries located here which employ 157 men, besides these, there are two coal mines which employ 110 men. There is land close to the railroad, available for additional factory sites, but there are no inducements offered to secure any additional enterprises for the city.

MENDOTA, LASALLE COUNTY.

Population in 1910, 3,806. Situated on Illinois Central; Chicago, Milwaukee & St. Paul; and the Chicago, Burlington & Quincy railroads.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. Water is supplied by city waterworks, at 10 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.85 per ton.

Mendota has eight churches, three banks, one graded and one high school. Three weekly newspapers are published. There are about twenty manufacturing industries located here.

METROPOLIS, MASSAC COUNTY.

Population in 1910, 4,655. Situated on the Ohio river. Illinois Central, and Chicago, Burlington & Quincy railroads, and is the county seat.

Tax rate for county purposes 95 cents and city \$1.90.

International money order postoffice. Electric light plant, electricity being furnished at 5 cents to 7½ cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks, from deep wells. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Metropolis has eleven churches, three banks, three graded and one high school. Three newspapers are published here. Sand and clay of a commercial value are found in this vicinity. There are nine factories located here, which employ about 400 men. There are 100 acres of land on the river and railroads, which is available and suitable for factory sites, and 300 persons could be secured for employment. Free sites will be given to induce additional enterprises to locate here.

MILLSTADT, ST. CLAIR COUNTY.

Population in 1910, 1,140. Situated on the Mobile & Ohio railroad. Tax rate for county purposes 56 cents, township 10 cents and city \$2.00. Electric light plant. Fair facilities for receipt and shipment of freight. Water is furnished from artesian wells. The city has ample fire protection. Coal can be bought for \$1.50 per ton.

Millstadt has three churches, one bank and six graded schools. One weekly newspaper is published. Wheat is grown in this vicinity. Coal is found here. There are five manufacturing industries located here, which employ 41 men. There are 20 acres of land, adjoining the railroad, which is available for factory sites, and 100 persons could be secured for employment. Any enterprise locating here, will be exempt from taxes for ten years.

MOLINE, ROCK ISLAND COUNTY.

Population in 1910, 24,199. Situated on the Mississippi river. International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being besides the river, four railroads. An excellent supply of water is furnished from artesian well in the center of the city for public fountains and office use. The Moline water power is one of the largest and best equipped in the west. Five thousand horse power is now available, with almost unlimited capacity for future development. The city has an excellent fire department. Coal can be bought at from \$1.40 to \$2.60 per ton, according to grade.

Moline has seventeen churches, four banks, eight graded, one high and one manual training school.

Three newspapers are published here. Coal is mined in this vicinity.

Moline is the largest shipping point on the Mississippi river for natural ice and sand. There are about eighty factories located here, which employ upwards of 7,000 men and 300 women.

Moline has two of the largest plow factories in the world, employing nearly 3,000 men. There are also large wagon, buggy, corn planter, and automobile factories located here. There is plenty of land on the river and railroads available and suitable for additional factory sites, and 1,000 persons could be secured for employment.

For any additional information and inducements offered to secure additional enterprises for this city, address the Secretary of the Moline Business Men's Association.

MONTICELLO, PIATT COUNTY.

Population in 1910, 1,981. Situated on Wabash; Illinois Central, and electric railroads.

Tax rate for county purposes 48 cents, township 8 cents and city \$1.69.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Water is furnished from deep wells. The city has ample fire protection.

Monticello has three churches, two banks, two graded and one high school. Two weekly newspapers are published. There are two manufacturing industries located here, which employ 48 men and 35 women. There is plenty of land near the railroads available for factory sites. The citizens offer no inducements to secure additional enterprises for the city.

MORRIS, GRUNDY COUNTY.

Population in 1910, 4,563. Situated on the Illinois river, and is the county seat.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight, there being besides the river, two railroads. A good supply of water is furnished from artesian wells, by electric pumps. The city has ample fire protection. Coal can be bought for \$2.50 per ton. Morris has six churches, and three banks. Two newspapers are published here. Corn and oats are grown in this vicinity. Sand is found here. There are seven manufacturing industries located here, which employ 855 men. There is plenty of land, near the railroad, which is available and suitable for factory sites, and plenty of help could be secured for employment. Morris has an association, which will give some inducements to secure additional enterprises for the city.

MORRISON, WHITESIDE COUNTY.

Population in 1910, 2,410. Situated on the Chicago & Northwestern railroad, and is the county seat. Tax rate for county purposes 53 cents. Township 1 cent and city \$1.58.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 to \$1.25 per 1,000 cubic feet and electricity at 10 cents to 15 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant at a cost of 10 cents to 25 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$2.25 per ton.

Morrison has nine churches, three banks, two graded schools, with manual training a part of the school curriculum. One weekly and one tri-weekly newspapers are published. Corn, wheat and oats are grown in this vicinity. There are seven industries located here, which employ 216 men and 26 women. There are 100 acres of land, near the railroad, available for factory sites, and 100 persons could be secured for employment. Free sites would probably be given to secure desirable enterprises. For any additional information, address the Secretary of the Morrison Commercial Club.

MT. MORRIS, OGLE COUNTY.

Population in 1910, 1,132. Situated on the Chicago, Burlington & Quincy railroad.

International money order postoffice. Electric light plant, electricity being furnished at 7 cents to 15 cents per kilowatt. Fair facilities for receipt and shipment of freight. Water is supplied from wells. The city has ample fire protection. Coal can be bought for \$2.10 per ton.

Mt. Morris has four churches, one bank, one graded and one high school. One weekly newspaper is published. Stone, gravel and clay are found in this vicinity. There are two industries located here which employ 80 men and 10 women. There are 15 acres of land, adjoining the railroad, which is available for factory sites, and 200 persons could be secured for employment.

MT. OLIVE, MACOUPIN COUNTY.

Population in 1910, 3,501. Situated on the Wabash; Illinois Central; Litchfield & Madison, and electric railroads.

Tax rate for county purposes \$1.40, township 50 cents and city \$2.00.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$1.50 per ton. Mt. Olive has five churches, two banks, three graded and one high school. Two weekly newspapers are published. Corn, wheat and oats are grown in this vicinity. There are fine coal fields here. There are seven manufacturing industries located here, which employ 46 men and 2 women, besides these there are two coal mines which employ 1,000 men.

The citizens are very desirous of having additional factories locate here, and would furnish some financial aid in securing them.

MT. STERLING, BROWN COUNTY.

Population in 1910, 1,986. Situated on the Wabash railroad, and is the county seat.

Tax rate for county purposes 50 cents, township 6 cents and city \$1.55.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is supplied from deep wells. The city has ample fire protection. Mt. Sterling has six churches, two banks, two graded and two high schools, with manual training a part of the school curriculum. Two newspapers are published here. Corn and wheat are grown in this vicinity. An excellent grade of clay, and some stone is found near here.

There are no factories located here, but there is plenty of land, adjoining the railroad which is available for a site for any concern seeking a location, and 2,000 persons could be secured in this and adjoining cities for employment. For any further information, address Mt. Sterling Commercial Club.

MOWEAQUA, SHELBY COUNTY.

Population in 1910, 1,513. Situated on the Illinois Central railroad.

International money order postoffice. Electric light plant, electricity being furnished at 12 cents per kilowatt. Fair facilities for receipt and shipment of freight. Water is supplied from deep wells. The city has ample fire protection. Coal can be bought for \$1.75 per ton.

Moweaqua has five churches, three banks, one graded and one high school. One weekly newspaper is published. Corn, wheat and oats are grown in this vicinity. Coal and clay are found here. There is plenty of land along the railroad, available for factory sites, and 50 persons could be secured for employment. There are no inducements offered to secure enterprises for this city.

MURPHYSBORO, JACKSON COUNTY.

Population in 1910, 7,475. Situated on the Mobile & Ohio; St. Louis, Iron Mountain and Southern, and Illinois Central railroads, and is the county seat. Tax rate for county purposes 75 cents and city \$2.00.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks at a cost of 5 cents per 1,000 gallons and up, depending upon quantity used. A paid fire department gives ample fire protection. Coal can be bought for 90 cents per ton.

Murphysboro has twelve churches, five banks, four graded and one high school, with manual training a part of the school curriculum. Two daily newspapers are published. Coal, limestone, shale and clay are found in this vicinity. There are several large manufacturing industries located here, also eight coal mines. There are 100 acres of land, adjoining the railroad, which is available for factory sites, and plenty of help could be secured for employment. For inducements offered to secure industries to locate here, address Commercial Association.

NAPERVILLE, DUPAGE COUNTY.

Population in 1910, 3,449. Situated on the Chicago, Burlington & Quincy railroad.

Tax rate for city purposes \$2.50 on the \$100.00 valuation.

International money order postoffice. Gas and electric light plant, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 7½ cents to 10 cents per kilowatt. Good facilities for receipt and shipment of freight. A good supply of water is furnished from springs by municipal plant, at a cost of 10 cents per 1,000 feet. The city has ample fire protection.

Naperville has ten churches, two banks, two graded and two high schools, with manual training a part of the school curriculum. One weekly newspaper is published. Stone is found in this vicinity. There are three manufacturing industries located here which employ 321 men and 44 women. There is plenty of land adjoining the railroad which is

available for factory sites, and plenty of help could be secured for employment. There are no standing inducements to secure additional enterprises, but would make special offer to any concern seeking a location.

NAUVOO, HANCOCK COUNTY.

Population in 1910, 1,020. Situated on the Mississippi river. International money order postoffice. Electric light plant. There are no railroads here, freight being handled by steamboat company. Water can be furnished by water plant. The city has ample fire protection. Coal can be bought for \$3.25 per ton.

Nauvoo has five churches, two banks, one graded and one high school. One semi-weekly and one weekly newspapers are published. Clay of a commercial value is found in this vicinity. There are no manufacturing industries located here, but any seeking a location could secure any amount of land desired along the river for a site, and plenty of help could be secured for employment. Some inducements would be given to secure some desirable industry.

NEWTON, JASPER COUNTY.

Population in 1910, 2,108. Situated on the Illinois Central railroad, and is the county seat.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from the river at a cost of 5 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.40 per ton.

Newton has six churches, two banks, one graded and one high school, with manual training a part of the school curriculum. Two newspapers are published. Corn, oats, wheat and broom corn are grown in this vicinity. There are seven manufacturing industries located here, which employ about 34 men and 1 woman.

There is an unlimited amount of land, adjoining the railroad, which is available for additional factory sites, and 500 persons could be secured for employment. Some inducements would be given to secure additional enterprises for the city.

NILWOOD, MACOUPIN COUNTY.

Population in 1910, 401. Situated on the Chicago & Alton, and electric railroads. Fair facilities for receipt and shipment of freight. Coal can be bought for \$1.25 per ton.

Nilwood has two churches, one bank, one graded and one high school, with manual training a part of the school curriculum. Corn, wheat, oats and hay are grown in this vicinity. Coal and clay are found near here. There is one coal mine here, which employs 150 men. There is plenty of land adjoining the railroad available for factory sites, and 200 persons could be secured for employment. The citizens offer no inducements to secure factories.

NOKOMIS, MONTGOMERY COUNTY.

Population in 1910, 1,872. Situated on the Cleveland, Cincinnati, Chicago & St. Louis railroad. Tax rate for county purposes \$2.00, township \$1.00 and city \$2.00.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Nokomis has seven churches, two banks, one graded and one high school, with manual training a part of the school curriculum. Three newspapers are published. Corn, oats, wheat and vegetables are grown in this vicinity. There are coal fields in this vicinity. There is plenty of land near the railroad available for factory sites, and 200 persons could be secured for employment. The citizens offer no inducements to secure factories.

NORMAL, McLEAN COUNTY.

Population in 1910, 4,024. Situated on the Chicago & Alton, and the Illinois Central railroads. Tax rate for county purposes 27 cents, township 6 cents and city \$2.26.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 15 cents per kilowatt. Good facilities for receipt and shipment of freight. Excellent supply of water is furnished by city system. The city has ample fire protection.

Normal has five churches, one bank, two graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. Corn, oats and wheat are grown in this vicinity. There are several small manufacturing industries located here. There is plenty of land near the railroad, available for additional factory sites, and plenty of persons could be secured for employment.

NORTH CHICAGO, LAKE COUNTY.

Population in 1910, 3,306. Situated on Lake Michigan.

Tax rate for county purposes 68 cents, township 3 cents and city \$3.00.

International money order postoffice. Gas and electric light plants, gas being furnished at 70 cents to \$1.25 per 1,000 cubic feet and electricity at 5 cents to 14½ cents per kilowatt. Good facilities for receipt and shipment of freight, there being besides the lake, two railroads. A good supply of water is furnished by city pumping station. The city has ample fire protection. Coal can be bought for \$2.65 per ton. North Chicago has four churches, one bank, and two graded schools. One weekly newspaper is published. There are eleven manufacturing industries located here which employ 2,233 men and 74 women. There are 150 acres of land, adjoining the railroads, which is available and suitable for factory sites, and 500 persons could be secured for employment. The citizens will give free sites to secure additional factories for this city.

OAKLAND, COLES COUNTY.

Population in 1910, 1,159. Situated on the Toledo, St. Louis & Western, and the Vandalia railroads.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is supplied from wells. The city has ample fire protection. Coal can be bought for \$2.50 per ton.

Oakland has four churches, two banks, one graded and one high school. One weekly newspaper is published. Corn, wheat, oats and broom corn are grown in this vicinity. There is plenty of land adjoining the railroads available for factory sites, and 100 persons could be secured for employment. The citizens will give some very liberal inducements to secure factories for this city.

ODELL, LIVINGSTON COUNTY.

Population in 1910, 1,035. Situated on the Chicago & Alton railroad.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is supplied from artesian wells. The city has a volunteer fire department.

Odell has three churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Corn and oats are grown in this vicinity. There are two factories located here which employ 3 men and 4 women. There is plenty of land adjoining the railroad available for factory sites, but only about 20 persons could be secured for employment.

O'FALLON, ST. CLAIR COUNTY.

Tax rate for county purposes 68 cents, township \$1.31 and city \$1.64.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by water plant. The city has ample fire protection.

O'Fallon has four churches, one bank, three graded and one high school. One newspaper is published. Corn, wheat and oats are grown in this vicinity. There is one factory located here which employs 100 men. There is plenty of land adjoining the railroads available for additional factory sites, and plenty of help could be secured for employment. There are several sites here, which will be given free to concerns which will locate here.

OLNEY, RICHLAND COUNTY.

Population in 1910, 5,011. Situated on the Cincinnati, Hamilton & Dayton; Illinois Central, and Baltimore & Ohio railroads, and is the county seat. Tax rate for county, township and city purposes is \$4.98.

International money order postoffices. Gas and electric light plants, gas being furnished to factories at 8 cents per 1,000 cubic feet. Good

facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Olney has ten churches, two banks, two graded and one high school. Two daily, two weekly and one semi-weekly newspapers are published. Corn, tomatoes and fruit are grown in this vicinity. Clay of a commercial value is found here. There are thirteen manufacturing industries located here which employ 214 men and 24 women. There are 120 acres of land adjoining the railroads, which is available for factory sites, and plenty of help could be secured for employment. Free sites and some financial aid will be given to secure additional enterprises for this city.

ONARGA, IROQUOIS COUNTY.

Population in 1910, 1,273. Situated on the Illinois Central railroad. International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is furnished from deep wells. The city has ample fire protection. Coal can be bought for \$2.50 per ton.

Onarga has four churches, two banks, one graded and one high school. One weekly newspaper is published. Corn is grown in this vicinity. There are no industries in this city. There are 20 acres of land adjoining the railroad, which would be available for factory sites, and 200 persons could be secured for employment. The citizens offer no inducements to secure enterprises for this city.

OTTAWA, LASALLE COUNTY.

Population in 1910, 9,535. Situated on the Fox river, and is the county seat. International money order postoffice. Gas and electric light plant. Good facilities for receipt and shipment of freight, there being two railroads. A good supply of water is furnished by city waterworks. The city has an excellent fire department. Coal can be bought for \$3.00 per ton.

Ottawa has twenty churches, three banks, eight graded and one high school. Three daily newspapers are published. There are ten manufacturing industries located here which employ 980 men and 100 women, also many smaller concerns. There is plenty of land near the railroads available for factory sites, and 2,000 persons could be secured for employment. Some inducements would be given to secure additional enterprises for this city.

PALATINE, COOK COUNTY.

Population in 1910, 1,144. Situated on the Chicago & Northwestern railroad. Tax rate for county purposes 72 cents, township \$1.00 and city \$2.72.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.00 per 1,000 cubic feet and electricity at 12 cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by plant. The city has an organized fire department. Coal can be bought for \$2.00 per ton.

Palatine has three churches, one bank, one graded and one high school. One weekly newspaper is published. There are no factories located here at present, but there is plenty of land adjoining the railroad available for factory sites, and plenty of help could be secured for employment.

Some inducements would be given to secure desirable enterprises for this city.

PANA, CHRISTIAN COUNTY.

Population in 1910, 6,055. Situated on the Cleveland, Cincinnati, Chicago & St. Louis; Chicago & Eastern Illinois; Baltimore & Ohio, and Illinois Central railroads.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Water is supplied from driven wells at 10 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.25 per ton.

Pana has eight churches, two banks, four graded and one high school, with manual training a part of the school curriculum.

One daily and one weekly newspapers are published. Shale of a commercial value is found in this vicinity. There are four manufacturing industries located here which employ 72 men and 11 women.

There are 15 acres of land convenient to all the railroads, available and suitable for factory sites, and about 2,000 persons could be secured for employment.

The citizens will donate the sites to desirable enterprises.

PARIS, EDGAR COUNTY.

Population in 1910, 7,664. Situated on the Cleveland, Cincinnati, Chicago & St. Louis; Vandalia, and electric railroads, and is the county seat.

Tax rate for county purposes 42 cents, township 12 cents and city \$2.00.

International money order postoffice. Gas and electric light plant. Good facilities for receipt and shipment of freight. Water is furnished by power plant. The city has a paid fire department.

Paris has twelve churches, three banks, four graded and one high school. Three daily and one weekly newspapers are published. Corn, oats and wheat are grown in this vicinity.

Sand is found here.

There are eight manufacturing industries located here, which employ 566 men and 104 women, also many smaller ones. There is plenty of land adjoining the railroads available for factory sites, and 500 persons could be secured for employment. Free sites and free water will be given to secure factories to locate here.

PARK RIDGE, COOK COUNTY.

Population in 1910, 2,009. Situated on the Chicago & Northwestern railroad. This is a suburb of Chicago, and is a residence city only. The citizens do not want any factories to locate here.

PECATONICA, WINNEBAGO COUNTY.

Population in 1910, 1,022. Situated on the Chicago & Northwestern, and electric railroads.

International money order postoffice. Electric light plant, electricity being furnished at 12 cents per kilowatt. Fair facilities for receipt and shipment of freight. Water is furnished by steam pumps. The city has ample fire protection.

Pecatonica has six churches, two banks, one graded and one high school. One weekly newspaper is published. There is plenty of land adjoining the railroad available for factory sites, and 100 persons could be secured for employment. There are no inducements offered to secure factories to locate here.

PEOTONE, WILL COUNTY.

Population in 1910, 1,207. Situated on the Chicago, Milwaukee & Gary, and Illinois Central railroads, also an electric line.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks. The city has ample fire protection. Coal can be bought for \$2.45 per ton.

Peotone has five churches, two banks, one graded and one high school. One weekly newspaper is published. Corn, oats and wheat are grown in this vicinity. There are two factories located here at present, but there is plenty of land near the railroad available for additional factory sites, and plenty of help could be secured for employment. Some inducements would be given to secure desirable enterprises.

PINCKNEYVILLE, PERRY COUNTY.

Population in 1910, 2,722. Situated on the Wabash, Chester & Western and the Illinois Central railroads, and is the county seat.

Tax rate for county purposes 65 cents and city \$1.57.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is furnished by direct pressure and tower. The city has ample fire protection. Coal can be bought for \$1.00 per ton.

Pinckneyville has six churches, two banks, one graded and one high school. Two weekly newspapers are published.

Wheat and broom-corn are grown in this vicinity. Coal, clay and sand are found here. There are two factories and three coal mines located here. There is plenty of land, adjoining the railroad, available for factory sites, and about 2,000 persons could be secured for employment. Some financial aid will be given to induce enterprises to locate here.

POLO, OGLE COUNTY.

Population in 1910, 1,828. Situated on the Chicago, Burlington & Quincy and the Illinois Central railroads.

Tax rate for township purposes 13 cents and city \$1.45.

International money order postoffice. Electric light plant, electricity being furnished at 7 cents to 15 cents per kilowatt. Fair facilities for receipt and shipment of freight. Water is furnished from deep wells. The city has ample fire protection. Coal can be bought for \$2.20 per ton.

Polo has eight churches, two banks, one graded and one high school, with manual training a part of the school curriculum. Two newspapers are published here. Limestone and clay are found in this vicinity. There is one manufacturing industry located here. There is an unlimited amount of land adjoining the railroads, available for factory sites, and plenty of help could be secured for employment. Free sites will be given to secure additional enterprises for this city.

PONTIAC, LIVINGSTON COUNTY.

Population in 1910, 6,090. Situated on the Chicago & Alton, Wabash, and the Illinois Central railroads, and is the county seat.

Tax rate for county purposes 30 cents and city \$1.55.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by Pontiac Light & Power Company. The city has ample fire protection. Coal can be bought for \$2.25 per ton.

Pontiac has eight churches, four banks, four graded and one high school, with manual training a part of the school curriculum. Two daily and weekly newspapers are published. Corn, oats, wheat and sweet corn are grown in this vicinity. Coal and clay are found here. There are ten manufacturing industries located here which employ 436 men and 250 women. There are 15 acres of land near the railroads available for factory sites, and 300 persons could be secured for employment. The citizens will either furnish free sites or give a cash bonus to secure additional factories for this city.

RANTOUL, CHAMPAIGN COUNTY.

Population in 1910, 1,384. Situated on the Illinois Central railroad.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has fair fire protection. Coal can be bought for 85 cents per ton.

Rantoul has seven churches, two banks, and one high school. Two weekly newspapers are published. Corn, oats, wheat and fruit are grown in this vicinity. There are no factories located here. Population in 1910, 4,046. Situated on the Chicago Great Western, and the Chicago & Northwestern railroads, and an electric line.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. Water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

St. Charles has ten churches, two banks, four graded and one high school. One weekly and one semi-weekly newspapers are published. There are fifteen manufacturing industries located here which employ 1,896 men and 138 women.

There is plenty of land adjoining or near the railroad, available for factory sites, and plenty of help could be secured for employment. Free sites are offered as inducements to secure additional enterprises to locate here.

ST. ELMO, FAYETTE COUNTY.

Population in 1910, 1,227. Situated on the Chicago & Eastern Illinois, and the Vandalia railroads. Tax rate for county purposes 45 cents, township 31 cents and city \$1.90.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks. The city has ample fire protection.

St. Elmo has five churches, two banks, one graded and one high school. One weekly newspaper is published. Shale of a commercial value is found here. There are seven manufacturing industries located here which employ 54 men and 12 women. There is plenty of land near the railroads available for factory sites, and plenty of help could be secured for employment. There are no inducements offered to secure factories for this city.

SANDWICH, DEKALB COUNTY.

Population in 1910, 2,557. Situated on the Chicago, Burlington & Quincy railroad. International money order postoffice. Electric light

plant. Fair facilities for receipt and shipment of freight. Water is furnished by stand-pipe. The city has ample fire protection. Coal can be bought for \$3.00 per ton.

Sandwich has six churches, two banks, two graded and two high schools. Two weekly newspapers are published. There are two manufacturing industries located here. There is plenty of land available for factory sites, and plenty of help could be secured for employment. The citizens offer no inducements to secure enterprises for this city.

SAVANNA, CARROLL COUNTY.

Population in 1910, 3,691. Situated on the Mississippi river.

International money order postoffice. Gas and electric light plants, gas being furnished at \$1.25 per 1,000 cubic feet and electricity at 6 cents to 16 cents per kilowatt. Good facilities for receipt and shipment of freight, there being besides the river, two railroads. Water is furnished by plant, from artesian wells, at 6 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$3.00 per ton.

Savanna has four churches, three banks, two graded and one high school, with manual training a part of the school curriculum. Two daily and weekly newspapers are published. There are about five small manufacturing industries located here. There are 20 acres of land near the railroad available for factory sites, and plenty of help could be secured for employment. The Savanna Improvement Association offers free sites to any enterprise locating here.

SHAWNEETOWN, GALLATIN COUNTY.

Population in 1910, 1,863. Situated on the Ohio river, and is the county seat.

Tax rate for county purposes \$1.14, township 60 cents and city \$7.20.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight, there being besides the river, two railroads. Water is furnished from drive wells. The city has poor equipment for fighting fires. Coal can be bought for \$1.00 per ton.

Shawneetown has nine churches, two banks, one graded and one high school.

Two weekly newspapers are published. Corn, wheat and oats are grown in this vicinity. Coal, lead, sand, gravel and limestone are found near here. There are six manufacturing industries located here which employ 153 men. There are 100 acres of land available for factory sites, and about 200 persons could be secured for employment. The citizens offer no inducements to secure factories for this city.

SHEFFIELD, BUREAU COUNTY.

Population in 1910, 1,009. Situated on the Chicago, Rock Island & Pacific railroad.

Tax rate for county purposes 54 cents, township 37 cents and city \$1.75.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is furnished by city. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Sheffield has six churches, one bank, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Corn and oats are grown in this vicinity. Clay is found here. There is one industry located here which employs 30 men. There are 20 acres of land, adjoining the railroad, available for any additional factory sites, and about 100 persons could be secured for employment.

SHELBYVILLE, SHELBY COUNTY.

Population in 1910, 3,590. Situated on the Cleveland, Cincinnati, Chicago & St. Louis, and the Chicago & Eastern Illinois railroads, and is the county seat.

Tax rate for county purposes 45 cents, township 9 cents and city \$1.65.

International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. Water is furnished from pumping station. The city has ample fire protection. Coal can be bought for \$1.75 per ton.

Shelbyville has eleven churches, three banks, two graded and one high school, with manual training a part of the school curriculum. One daily and three weekly newspapers are published. Coal, clay and gravel are found in this vicinity. There are four manufacturing industries located here. There are 10 acres of land, adjoining the two railroads, available for factory sites, and 200 persons could be secured for employment. Free sites would be given and probably some financial aid, in securing factories for this city.

SHELDON, IROQUOIS COUNTY.

Population in 1910, 1,143. Situated on the Toledo, Peoria & Western, and the Cleveland, Cincinnati, Chicago & St. Louis railroads. This city is not desirous of having any manufacturing industries locate here.

SORENTO, BOND COUNTY.

Population in 1910, 1,018. Situated on the Toledo, St. Louis & Western, and the Chicago, Burlington & Quincy railroads. Electric light plant. Fair facilities for receipt and shipment of freight. Water is furnished by water works from wells. The city has ample fire protection. Coal can be bought for \$1.75 per ton. Sorento has four churches and one bank. One weekly newspaper is published. There are coal fields in this vicinity. There is an unlimited amount of land available for factory sites, and 300 men could be secured for employment. Some inducements might be given to secure the location of factories here.

SPARTA, RANDOLPH COUNTY.

Population in 1910, 3,081. Situated on the Mobile & Ohio and the Illinois Southern railroads.

Tax rate for county purposes 51 cents and city \$1.48.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by private waterworks company. The city has ample fire protection. Coal can be bought for \$1.00 per ton.

Sparta has eleven churches, two banks, one graded and one high school, with manual training a part of the school curriculum. Two weekly newspapers are published. Coal is mined in this vicinity. There are eleven manufacturing industries located here which employ 313 men and 8 women.

There are 170 acres of land, adjoining the railroad, available and suitable for factory sites, and 200 persons could be secured for employment. The Randolph Club offers inducements to secure factories to locate here.

SPRINGFIELD, SANGAMON COUNTY.

Population in 1910, 51,678. Situated on the Chicago & Alton; Illinois Central; Wabash; Baltimore & Ohio; Chicago, Peoria & St. Louis, and the Cincinnati, Hamilton & Dayton railroads and three electric lines, and is the capitol of the State and county seat.

Tax rate for county purposes 58 cents, township 7 cents and city \$2.37.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished by city waterworks, special rates will be given to factories. The city has a paid fire department, with eight engine houses. Coal can be bought very cheap for manufacturing purposes, as there are a great many mines located here.

Springfield has fifty-five churches, eight banks, sixteen graded and one high school, with manual training a part of the school curriculum. Four daily and five weekly newspapers are published here.

Corn, oats, wheat, vegetables and fruit are grown in this vicinity. Coal, sand and clay of a commercial value are found here.

There are one hundred manufacturing industries located here which employ 2,868 men and 546 women. There is plenty of land adjoining the railroads available and suitable for factory sites, and plenty of help could be secured for employment.

Free sites and financial aid will be given to secure additional factories for this city. For any information address Springfield Commercial Association.

SPRING VALLEY, BUREAU COUNTY.

Population in 1910, 7,035. Situated on the Illinois river.

International money order postoffice. Gas and electric light plants.

Good facilities for receipt and shipment of freight, there being besides the river, three railroads. A good supply of water is furnished by city plant. The city has ample fire protection.

Spring Valley has seven churches, one bank, three graded and one high school. One newspaper is published. Grains and vegetables are grown in this vicinity. Sand and clay of a commercial value are found here. There is land adjoining the railroads available for factory sites, and 1,000 persons could be secured for employment.

STAUNTON, MACOUPIN COUNTY.

Population in 1910, 5,048. Situated on the Wabash; Litchfield & Madison, and Illinois Traction System electric railroads.

Tax rate for county purposes 75 cents, township 45 cents and city 55 cents.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by direct pressure. The city has ample fire protection. Coal can be bought for 65 cents per ton.

Staunton has six churches, two banks, four graded and one high school, with manual training a part of the school curriculum. There are large quantities of coal mined in this vicinity. There are no large manufacturing industries located here, but there are 500 acres of land adjoining the railroads which is available and suitable for factory sites, and 500 persons could be secured for employment. Free sites and financial aid will be given as inducements to secure factories to locate here.

STERLING, WHITESIDE COUNTY.

Population in 1910, 7,467. Situated on the Rock river, the Chicago & Northwestern, and the Chicago, Burlington & Quincy railroads.

Tax rate for county purposes \$1.00, township 50 cents and city \$2.75.

International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by private company at a cost of 10 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.90 per ton. Sterling has sixteen churches, three banks, three graded and one high school. Two daily and one weekly newspapers are published. Corn, wheat, oats and rye are grown in this vicinity. There are about fifty manufacturing industries located here which employ about 3,000 people. There is plenty of land available for additional factory sites, and 200 persons could be secured for employment.

STREATOR, LASALLE COUNTY.

Population in 1910, 14,253. Situated on the Chicago, Burlington & Quincy; Chicago & Alton; Wabash; Atchison, Topeka & Santa Fé, and Chicago, Indiana & Southern railroads.

Tax rate for all purposes about \$6.50.

International money order postoffice. Gas and electric plants, electricity being furnished as low as $1\frac{1}{2}$ cents per kilowatt. Excellent facilities for receipt and shipment of freight. A good supply of water is furnished from river at 6 cents per 1,000 gallons. The city has a paid fire department.

Streator has twenty churches, three banks, eight graded and one high school, with manual training a part of the school curriculum. Three daily newspapers are published. Coal and clay of a commercial value are found in this vicinity. There are quite a large number of manufacturing industries located here.

There is plenty of land, adjoining any of the railroads available and suitable for factory sites, and plenty of help could be secured for employment.

Free sites and financial aid will both be given to secure additional factories to locate here.

SUMNER, LAWRENCE COUNTY.

Population in 1910, 1,413. Situated on the Baltimore and Ohio Southwestern railroad.

International money order postoffice. Natural gas is furnished at 23 cents per 1,000 cubic feet. Fair facilities for receipt and shipment of freight. Water is furnished from wells. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Sumner has five churches, two banks, one graded and one high school. One newspaper is published here. Clay of a commercial value is found in this vicinity. There are four manufacturing industries located here, which employ 25 men and 40 women.

There is plenty of land adjoining the railroad available for factory sites, and 100 persons could be secured for employment.

Free sites or financial aid would be given to secure desirable enterprises to locate here.

SYCAMORE, DEKALB COUNTY.

Population in 1910, 3,926. Situated on the Chicago, Great Western; Chicago & Northwestern and electric railroads, and is the county seat.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished from deep wells, at 6 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$3.25 per ton.

Sycamore has nine churches, three banks, four graded and one high school, with manual training a part of the school curriculum. Two semi-weekly newspapers are published. Corn and vegetables are grown in this vicinity. There are seven manufacturing industries located here which employ 690 men and 120 women.

There is plenty of land adjoining the railroad available and suitable for factory sites, and plenty of help could be secured for employment. Some inducements would be given to secure additional enterprises to locate here.

TAYLORVILLE, CHRISTIAN COUNTY.

Population in 1910, 5,446. Situated on the Wabash; Baltimore & Ohio, and Chicago & Illinois Midland railroads, and is the county seat.

Tax rate for county purposes 75 cents, township 6 cents and city \$2.00.

International money order postoffice. Two electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished from drive wells. The city has a paid fire department. Coal can be bought for \$1.00 per ton.

Taylorville has nine churches, five banks, four graded and one high school, with manual training a part of the school curriculum. Two daily newspapers are published. There are good coal fields in this vicinity. There are sixteen manufacturing industries located here which employ about 400 men and 52 women.

There is plenty of land adjoining the railroads, available and suitable for factory sites, and 1,000 persons could be secured for employment. For inducements to secure factories to locate here address Commercial Club.

TOLUCA, MARSHALL COUNTY.

Population in 1910, 2,407. Situated on the Atchison, Topeka & Santa Fé, and Chicago & Alton railroads.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from artesian wells. The city has ample fire protection. Toluca has two banks, one graded and high school. Two newspapers are published. There is plenty of land adjoining the railroads, available for factory sites, and plenty of help could be secured for employment.

TROY, MADISON COUNTY.

Population in 1910, 1,447. Situated on the Vandalia, and St. Louis, Troy and Eastern railroads.

Tax rate for county purposes \$2.47, township 46 cents and city 47 cents.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. Water is furnished from wells. The city has ample fire protection. Coal can be bought for \$1.00 per ton.

Troy has six churches, one bank, three graded and one high school. One weekly newspaper is published. Corn, wheat and oats are grown in this vicinity. Coal and clay are found here. There is plenty of land adjoining the railroads, available for factory sites, and 100 persons could be secured for employment.

Some inducements would probably be given to secure desirable enterprises to locate here.

URBANA, CHAMPAIGN COUNTY.

Population in 1910, 8,245. Situated on the Cleveland, Cincinnati, Chicago & St. Louis; Wabash, and Illinois Traction System electric railroads, and is the county seat. Tax rate for county purposes 50 cents, township 10 cents and city \$1.70.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished by the Urbana & Champaign Water Company. The city has ample fire protection. Coal can be bought for \$1.00 per ton. Urbana has nine churches, four banks, five graded and one high school, with manual training a part of the school curriculum. One daily and weekly newspaper is published. There are about twelve manufacturing industries located here, six of which employ 460 men. There are 40 acres of land near the railroads, available for additional factory sites.

VENICE, MADISON COUNTY.

Population in 1910, 3,718. Situated on the Mississippi river, about five miles north of East St. Louis.

Tax rate for county purposes 74 cents, township 9 cents and city \$1.12.

International money order postoffice. Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being terminal railroad connections with East St. Louis and St. Louis. A good supply of water is furnished by private company. The city has ample fire protection. Coal can be bought for 80 cents per ton. Sand of a commercial value is found here. There is plenty of land on the terminals, available for factory sites, and plenty of help could be secured for employment.

VIENNA, JOHNSON COUNTY.

Population in 1910, 1,124. Situated on the Cleveland, Cincinnati, Chicago & St. Louis railroad, and is the county seat.

Tax rate for county purposes 75 cents and city \$2.50.

International money order postoffice. Fair facilities for receipt and shipment of freight. Water is supplied from the river. The city has ample fire protection.

Vienna has five churches, three banks, one graded and one high school. Two newspapers are published. Broom corn and vegetables are grown in this vicinity. There are 200 acres of land, near the railroad, available for factory sites, and 300 persons could be secured for employment.

WARREN, JOHNSON COUNTY.

Population in 1910, 1,331. Situated on the Illinois Central and the Chicago, Milwaukee & St. Paul railroads.

International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. Water is furnished from deep wells. The city has ample fire protection. Coal can be bought for \$2.65 per ton.

Warren has five churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. There are three manufacturing industries located here. There are 10 acres of land, near the railroads, available for factory sites, and 100 persons could be secured for employment. Free sites and some financial aid will be given to induce additional enterprises to locate here.

WARSAW, HANCOCK COUNTY.

Population in 1910, 2,254. Situated on the Mississippi river, the Toledo, Peoria & Western railroad and an electric line.

Tax rate for county purposes 47 cents and city \$1.67.

International money order postoffice. Electric light plant, electricity being furnished at 4 cents to 12½ cents per kilowatt. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Warsaw has seven churches, one bank, two graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. Corn, wheat and oats are grown in this vicinity. Clay and sand of a commercial value are found here. There are fifteen manufacturing industries located here, six of these employ 295 men and 145 women. There are 500 acres of land, close to the railroad and river, available and suitable for factory sites, and plenty of help could be secured for employment. For inducements offered to factories seeking locations, address Business Men's Association.

WATERLOO, MONROE COUNTY.

Population in 1910, 2,091. Situated on the Mobile & Ohio railroad, and is the county seat.

Tax rate for county purposes 85 cents and city 65 cents.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant, at 5 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.52 per ton.

Waterloo has four churches, two banks, two graded and one high school. Two weekly newspapers are published. There are four manufacturing industries located here, which employ about 88 men. There is plenty of land adjoining the railroad available for factory sites, and about 100 persons could be secured for employment.

Free sites would probably be furnished to secure additional enterprises to locate here.

WATSEKA, IROQUOIS COUNTY.

Population in 1910, 2,476. Situated on the Toledo, Peoria & Western, and the Chicago & Eastern Illinois railroads, and is the county seat.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection. Coal can be bought for \$1.90 per ton.

Watseska has six churches, three banks, two graded and one high school, with manual training a part of the school curriculum. Two newspapers are published. Corn is grown in this vicinity. Sand and clay are found here. There is plenty of land near the railroads available for factory sites, and 200 persons could be secured for employment. Some inducements would probably be given to secure desirable enterprises to locate here.

WAUKEGAN, LAKE COUNTY.

Population in 1910, 16,069. Situated on Lake Michigan and is the county seat.

Tax rate for county purposes 45½ cents, township 7¾ cents and city \$1.97.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight, there being besides the lake, two steam and one electric railroad. A good supply of water is furnished from Lake Michigan, at 5 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Waukegan has fourteen churches, three banks, seven graded and one high school, with manual training a part of the school curriculum. Two newspapers are published. Clay and sand of a commercial value are found here. There are sixteen manufacturing industries located here which employ 3,167 men and 307 women. There are about 300 acres of land adjoining the railroads available and suitable for additional factory sites, and plenty of help could be secured for employment.

WENONA, MARSHALL COUNTY.

Population in 1910, 1,442. Situated on the Chicago & Alton, and the Illinois Central railroads.

Tax rate for county purposes 34 cents, township 5 cents and city \$1.67.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. A good supply of water is furnished from artesian wells. The city has ample fire protection.

Wenona has five churches, two banks, three graded and one high school, with manual training a part of the school curriculum.

One newspaper is published. Corn is grown in this vicinity. Coal and clay are found here. There is one manufacturing industry located here which employs 10 men. There are 640 acres of land near the railroads, available for factory sites, and 300 persons could be secured for employment. Some inducements might be given to secure additional factories to locate here.

WEST CHICAGO, DUPAGE COUNTY.

Population in 1910, 2,378. Situated on the Elgin, Joliet & Eastern; Chicago & Northwestern, and Chicago, Burlington & Quincy railroads, and an electric line. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished by city plant. The city has ample fire protection.

West Chicago has six churches, two banks, two graded and one high school. Two weekly newspapers are published. Wheat, oats, barley and rye are grown in this vicinity. Sand and gravel are found here. There are ten manufacturing industries located here. There are 200 acres of land adjoining the railroads, available and suitable for factory sites, and plenty of help could be secured for employment. Free sites will be given to secure additional enterprises to locate here.

WEST HAMMOND, COOK COUNTY.

Population in 1910, 4,948. Situated about 15 miles south of Chicago and just across the State line from Hammond, Indiana.

Tax rate for county purposes 53 cents, township 9 cents and city \$2.25.

Gas and electric light plants. Excellent facilities for receipt and shipment of freight, there being seventeen railroads. A good supply of water is furnished by waterworks plant, at 7 cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.50 per ton. West Hammond has one bank. The Hammond, Indiana newspapers are delivered here. Sand of a commercial value is found here in abundance. There are about seven industries located here. There are several hundred acres of land adjoining the railroads, available for factory sites, and plenty of help could be secured for employment.

WESTVILLE, VERMILION COUNTY.

Population in 1910, 2,607. Situated on the Chicago & Eastern Illinois and the Cleveland, Cincinnati, Chicago & St. Louis railroads.

International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. Water is supplied from wells. The city has ample fire protection. Coal can be bought for \$2.00 per ton.

Westville has five churches, one bank and two graded schools.

One weekly newspaper is published. Corn and farm products are grown in this vicinity. Coal of a commercial value is found here. There are 100 acres of land available for factory sites, and 100 persons could be secured for employment. There are no inducements offered to secure enterprises to locate here.

WHEATON, DUPAGE COUNTY.

Population in 1910, 3,423. Situated on the Chicago & Northwestern railroad and an electric line, and is the county seat.

International money order postoffice. Gas and electric light plants. Good facilities for receipt and shipment of freight. A good supply of water is furnished by the city. The city has ample fire protection.

Wheaton has nine churches, two banks, three graded and one high school. Two newspapers are published here. The citizens do not desire manufacturing industries to locate here.

WHITE HALL, GREENE COUNTY.

Population in 1910, 2,854. Situated on the Chicago & Alton, and the Chicago, Burlington & Quincy railroads. Tax rate for county purposes 48 cents, township 7 cents and city \$1.61.

International money order postoffice. Electric light plant. Good facilities for receipt and shipment of freight. A good supply of water is furnished by waterworks at $6\frac{3}{4}$ cents to $8\frac{1}{2}$ cents per 1,000 gallons. The city has ample fire protection. Coal can be bought for \$1.75 per ton.

White Hall has five churches, three banks, one graded and one high school, with manual training a part of the school curriculum. One daily and one weekly, newspapers are published. Corn, wheat, alfalfa and truck products are grown in this vicinity. Coal and clay of a commercial value are found here. There are nine manufacturing industries located here which employ upward of 417 men and 27 women. There are 200 acres of land adjoining the railroads, available and suitable for factory sites, and 600 persons could be secured for employment.

Free sites and financial aid will both be given to secure desirable enterprises to locate here.

WILMETTE, COOK COUNTY.

Population in 1910, 4,943: Situated on Lake Michigan about 15 miles north of Chicago. This is a city of residences, and does not desire any manufacturing industries to locate here.

WILMINGTON, WILL COUNTY.

Population in 1910, 1,450. Situated on the Wabash railroad. International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. The city has ample fire protection.

Wilmington has three churches, two banks, one graded and one high school, with manual training a part of the school curriculum. One weekly newspaper is published. There is one manufacturing industry located here which employs 60 men and 1 woman.

There is plenty of land near the railroad available for factory sites, but no inducements are offered to secure factories.

WINCHESTER, SCOTT COUNTY.

Population in 1910, 1,639. Situated on the Chicago, Burlington & Quincy railroad, and is the county seat.

Tax rate for county purposes 75 cents and city \$1.30.

International money order postoffice. Electric light plant. Fair facilities for receipt and shipment of freight. Water is supplied by wells. The city has poor fire protection. Coal can be bought for \$2.50 per ton.

Winchester has five churches, two banks, one graded and one high school. Two weekly newspapers are published. There is plenty of land near the railroad available for factory sites, and plenty of help could be secured for employment.

WOODSTOCK, McHENRY COUNTY.

Population in 1910, 4,331. Situated on the Chicago & Northwestern railroad, and is the county seat.

International money order postoffice. Gas and electric light plants. Fair facilities for receipt and shipment of freight. Water is supplied from wells. The city has ample fire protection. Coal can be bought for \$2.40 per ton.

Woodstock has eight churches, four banks, three graded and one high school, with manual training a part of the school curriculum. Two newspapers are published. This is a great dairy country. Sand and gravel are found here. There are nine manufacturing industries located here, six of which employ 1,195 men and 240 women. There are 300 acres of land, adjoining the railroad, available and suitable for factory sites, and 2,500 persons could be secured for employment. Free sites will be given to secure desirable enterprises to locate here.

Winnebago— Pecatonica.....	Volunteer.....			1	1	1	6	2
Woodford— Eureka.....							

NOTE—An apparent discrepancy appears between the number of factories in the different cities and those reported elsewhere, this occurs for the reason that the persons filling out the schedules would report so many industries and then fail to enumerate a like number in another part of the schedule calling for the same thing.

TABLE 5—Name of Manufacturers and Articles Manufactured, with Number of Employés—Males and Females—by Municipalities and Counties.

Municipalities and Counties.	Name of Manufacturers.	Articles Manufactured.	Employés—Number.	
			Male.	Female.

TABLE 9—Summary of Table 8, Showing the Articles Made, the Number of Municipalities, Factories and Employés.

Industries.	Number of Municipalities.	Number of Factories.	Employés.		
			Males.	Females.	Total.
The State.....	187	938	79,901	10,376	90,277
Agricultural implements.....	8	12	1,433	75	1,508
Aluminum ware.....	1	1	1,200	1,200
Artificial limbs.....	1	1	4	4
Artificial stone.....	2	2	12	1	12
Asphalt.....	1	1	25	25
Automobiles.....	3	3	553	21	554
Automobile oilers.....	1	1	20	20
Auto trucks.....	1	1	50	50
Awnings and tents.....	1	2	17	5	22
Axe handles.....	1	1	1	1	1
Axles.....	1	1	1	1
Babbit metal.....	2	2	126	1	126
Badges.....	1	1	8	8
Baking powder.....	2	3	52	305	357
Barrels.....	5	6	360	2	360
Beer and malt.....	17	20	845	26	851
Blankets.....	1	1	100	100
Block repairs.....	1	1	2	2
Boats.....	1	1	25	25
Boilers.....	5	7	185	2	187
Books.....	4	5	213	367	580
Bottles and glassware.....	7	8	3,855	325	4,180
Box boards.....	1	1	50	50
Boxes, paper.....	2	2	140	47	187
Boxes, wooden.....	7	7	478	251	529
Brake shoes.....	1	1	15	15
Brass beds.....	1	1	100	100
Brass castings.....	2	3	90	1	91
Brass fixtures.....	1	1	1	1
Brass ware.....	1	2	28	28
Bread and cakes.....	1	1	3	3
Breakfast foods.....	5	5	255	45	300
Brick.....	24	32	1,965	7	1,972
Brick and tile.....	19	20	360	4	360
Bridges.....	5	5	185	1	185
Bronze ingots.....	1	1	60	2	62
Brooms.....	5	5	200	41	241
Brushes.....	2	2	44	37	81
Buggies.....	1	1	500	500

Table 9—Continued.

Industries.	Number of Municipalities.	Number of Factories.	Employés.		
			Males.	Females.	Total.
Buggies and wagons.....	1	1	16		16
Building material.....	2	3	180		180
Buttons.....	3	4	260		260
Cabinets.....	1	1	125		125
Calendars.....	1	1	225	150	375
Candy.....	4	5	134	122	256
Candy and ice cream.....	2	3	10	3	13
Canned corn.....	4	4	1252	1175	1427
Canned fruit.....	1	1	200	50	250
Canned goods.....	6	7	2299	2287	2586
